# SUBJECT INDEX

**Acid phosphatase**
The effect of temperature and inorganic phosphorus supply on growth and acid phosphatase production in arctic and temperate strains of ectomycorrhizal *Hebeloma* spp. in axenic culture 129
**Acid rain**
Effect of simulated acid rain on the occurrence of *Lophodermium* on Japanese black pine needles 1316
***Acrogenospora altissima***
The hyphomycete genus *Acrogenospora*, with two new species and two new combinations 1309
***Acrogenospora gigantospora***
The hyphomycete genus *Acrogenospora*, with two new species and two new combinations 1309
***Acrogenospora megalospora***
The hyphomycete genus *Acrogenospora*, with two new species and two new combinations 1309
***Acrogenospora novae-zelandiae***
The hyphomycete genus *Acrogenospora*, with two new species and two new combinations 1309
***Acrogenospora ovalia***
The hyphomycete genus *Acrogenospora*, with two new species and two new combinations 1309
***Acrogenospora setiformis***
The hyphomycete genus *Acrogenospora*, with two new species and two new combinations 1309
***Acrogenospora sphaerocephala***
The hyphomycete genus *Acrogenospora*, with two new species and two new combinations 1309
***Acrogenospora subprolata***
The hyphomycete genus *Acrogenospora*, with two new species and two new combinations 1309
**Aflatoxin**
Characterization of the *Aspergillus flavus* population within an Illinois maize field 263
***Agaricus***
Lectins from mushrooms 897
***Agaricus bisporus***
Genetic comparison of the aggressive weed mould strains of *Trichoderma harzianum* from mushroom compost in North America and the British Isles 385
Mushrooms upright, sideways and inside-out 641
Identification of benzimidazole resistance in *Cladobotryum dendroides* using a PCR-based method 671
The role of morphogenetic cell death in the histogenesis of the mycelial cord of *Agaricus bisporus* and in the development of macrofungi 719
Changes in enzyme activities during early growth of the edible mushroom, *Agaricus bisporus*, in compost 1113
Biochemical and molecular aspects of growth and fruiting of the edible mushroom *Agaricus bisporus* 1297
*Agaricus bisporus* browning: a review 1459
Analysis of *Agaricus bisporus* tyrosinase activation and phenolics utilization during *Pseudomonas tolaasii* or tolaasin-induced discolouration 1497
**Allozyme variation**
Allozyme analysis of Australian isolates of *Dilophospora alopecuri* 301
***Alternaria brassicae***
RAPD analysis of three *Alternaria* species pathogenic to crucifers 807
***Alternaria brassicicola***
RAPD analysis of three *Alternaria* species pathogenic to crucifers 807
***Alternaria raphani***
RAPD analysis of three *Alternaria* species pathogenic to crucifers 807
***Amanita muscaria***
The uptake and transport of lead in some ectomycorrhizal fungi in culture 953
***Amanita pantherina***
Lectins from mushrooms 897
***Amorphotheca resinae***
Detection of *Amorphotheca resinae* in German soil by an improved selective isolation method 323
**Amylase**
Extracellular β-amylase from *Syncephalastrum racemosum* 1563
**Anaerobic fungi**
Attachment to cellulose and maturation of attached thalli in the anaerobic rumen fungus *Neocallimastix frontalis* strain RE1 1119
**Anamorphs**
Relationship between *Prosthemium betulinum* and *Pleomassaria siparia* 1509
***Ancorasporella mexicana***
*Ancorasporella*, a new genus of hyphomycetes from Mexico 736
***Anguillospora filiformis***
Effect of dissolved nutrients on two aquatic hyphomycetes growing on leaf litter 998
***Anhelia tabebuiae***
Some foliicolous fungi on *Tabebuia* species 695
**Antagonism**
Ochratoxin A accumulation in cultures of *Penicillium verrucosum* with the antagonistic yeast *Pichia anomala* and *Saccharomyces cerevisiae* 1003
***Anthostomella petrinensis***
Fungi from Mauritius: *Anthostomella* species on *Pandanus* 1319
***Anthostomella theobromina***
Fungi from Mauritius: *Anthostomella* species on *Pandanus* 1319
**Antibiotic activity**
Endophytic fungi from plants living on gypsum soils as a source of secondary metabolites with antimicrobial activity 755
**Antifungal activity**
Effects of azole antifungal agents on ionomycin-induced changes in intracellular calcium concentration in *Trichophyton rubrum* 193
Kinetic evaluation of conidial germination of *Botrytis cinerea* by a spectrofluorometric method 320
Microtubule depolymerization in *Uromyces appendiculatus* by three new antineoplastic drugs: combretastatin A-4, dolastatin 10 and halichondrin B 378
Possible role of chitosan in the interaction between barley and *Erysiphe graminis* after tetraconazole treatment 599
Growth control of different *Fusarium* species by selected flavones and flavonoid mixtures 638
Developmental abnormalities in benomyl-resistant strains of *Neurospora crassa* 869
Detoxification of α-tomatine by *Fusarium solani* 1375
The photodynamic effect of 5-(4-hydroxy-1-butinyl)-2,2′-bithienyl on dermatophytes 1519
***Antrodia lalashana***
*Antrodia lalashana* sp. nov. and *Antrodiella formosana* sp. nov. in Taiwan 400
***Antrodia sinuosa***
Cultural studies of fungi causing brown rot in heartwood of living lemon trees in Arizona 257
***Antrodiella formosana***
*Antrodia lalashana* sp. nov. and *Antrodiella formosana* sp. nov. in Taiwan 400
***Aphanomyces astaci***
The inhibition of extracellular proteinases from *Aphanomyces* spp. by three different proteinase inhibitors from crayfish blood 820

***Aphanomyces chochlioides***
The inhibition of extracellular proteinases from *Aphanomyces* spp. by three different proteinase inhibitors from crayfish blood 820
***Aphanomyces euteiches***
Germination triggers of zoospore cysts of *Aphanomyces euteiches* and *Phytophthora parasitica* 33
Characterization of *Aphanomyces euteiches* strains based on pathogenicity tests and random amplified polymorphic DNA analyses 465
The inhibition of extracellular proteinases from *Aphanomyces* spp. by three different proteinase inhibitors from crayfish blood 820
***Aphanomyces laevis***
The inhibition of extracellular proteinases from *Aphanomyces* spp. by three different proteinase inhibitors from crayfish blood 820
**Appressorium formation**
Scanning electron microscopy of early infection structure formation by *Puccinia recondita* f. sp. *tritici* on and in susceptible and resistant wheat lines 391
Microinjected antisense *Inf24* oligonucleotides inhibit appressorium development in *Uromyces* 1513
***Aquaphila albicans***
*Aquaphila albicans* gen. et sp. nov., a hyphomycete from submerged wood in the tropics 587
**Aquatic hyphomycetes**
*Aquaphila albicans* gen. et sp. nov., a hyphomycete from submerged wood in the tropics 587
Effect of dissolved nutrients on two aquatic hyphomycetes growing on leaf litter 998
**Arctic-alpine fungi**
Fungal biodiversity in dead leaves of fertilized plants of *Dryas octopetala* from a high arctic site 573
***Armillaria***
Variation in the ITS and IGS regions of ribosomal DNA among the biological species of European *Armillaria* 533
***Arthrobotrys chazarica***
New nematophagous fungi from Azerbaijan 683
***Arthrowallemia formosa***
*Arthrowallemia*, a new species of hyphomycetes from tropical litter 16
**Artificial neural networks**
Evaluation of artificial neural networks for fungal identification, employing morphometric data from spores of *Pestalotiopsis* species 975
***Ascochyta fabae***
Detection of multiple rRNA-ITS regions in isolates of *Ascochyta* 762
***Ascochyta pisi***
Detection of multiple rRNA-ITS regions in isolates of *Ascochyta* 762
***Ascochyta viciae-pannonicae***
Detection of multiple rRNA-ITS regions in isolates of *Ascochyta* 762
***Ascochyta viciae-villosae***
Detection of multiple rRNA-ITS regions in isolates of *Ascochyta* 762
***Ascosphaera***
Identification and phylogeny of spore-cyst fungi (*Ascosphaera* spp.) using ribosomal DNA sequences 541
***Ascotaiwania hsilio***
New freshwater species of *Ascotaiwania* and *Savoryella* from Taiwan 709
***Ascotaiwania lignicola***
New freshwater species of *Ascotaiwania* and *Savoryella* from Taiwan 709
***Ascotaiwania sawada***
New freshwater species of *Ascotaiwania* and *Savoryella* from Taiwan 709
***Ascotaiwania wulai***
New freshwater species of *Ascotaiwania* and *Savoryella* from Taiwan 709
***Ascotricha hispanica***
A new species of *Ascotricha* from Spanish soil 510
***Aspergillus***
Environmental factors, *in vitro* interactions, and niche overlap between *Fusarium moniliforme*, *Fusarium proliferatum*, *Aspergillus* and *Penicillium* species from maize grain 831
Effect of water activity and temperature on competing abilities of common maize fungi 959
***Aspergillus flavus***
Characterization of the *Aspergillus flavus* population within an Illinois maize field 263
***Aspergillus niger***
Solubilization of natural gypsum ($CaSO_4.2H_2O$) and the formation of calcium oxalate by *Aspergillus niger* and *Serpula himantioides* 825
Influence of the carbon, nitrogen and phosphorus source on the solubilization of insoluble metal compounds by *Aspergillus niger* 1050
***Asterina hopiicola***
Four new foliicolous ascomycetes from Kerala, India 184
***Asterinella pterigotae***
Four new foliicolous ascomycetes from Kerala, India 184
***Astrocystis cepiformis***
Fungi from Mauritius: three *Astrocystis* species from *Pandanus* 1325
***Astrocystis fimbriata***
Fungi from Mauritius: three *Astrocystis* species from *Pandanus* 1325
***Astrocystis rarissima***
Fungi from Mauritius: three *Astrocystis* species from *Pandanus* 1325
**Attachment**
Hydrophobicity and surface electrostatic charge of conidia of the mycoparasite *Coniothyrium minitans* 243
**Attachment organs**
Attachment to cellulose and maturation of attached thalli in the anaerobic rumen fungus *Neocallimastix frontalis* strain RE1 1119
**Basidiocarp development**
Observations on development, morphology and biology in *Phaeocollybia* 615
***Beauveria***
Distinction between *Beauveria* and *Tolypocladium* by carbohydrate utilization 81
***Beauveria bassiana***
Morphological and genetic characterisation of *Beauveria* spp. from New Zealand 250
***Beauveria brongniartii***
Morphological and genetic characterisation of *Beauveria* spp. from New Zealand 250
**Benomyl**
Developmental abnormalities in benomyl-resistant strains of *Neurospora crassa* 869
***Betula pubescens***
Evidence for resistance of mountain birch (*Betula pubescens* ssp. *czerepanovii*) to birch rust (*Melampsoridium betulinum*) 63
**Biodiversity**
Some new coelomycetes from Central Brazil 19
**Biological control**
Intraspecific diversity in *Paecilomyces fumosoroseus* 209
Occurrence of *Metarhizium anisopliae* in nests and feeding sites of Australian termites 216
Morphological and genetic characterisation of *Beauveria* spp. from New Zealand 250
Allozyme analysis of Australian isolates of *Dilophospora alopecuri* 301
Techniques for selective isolation, semiquantification and rapid virulence testing of *Catenaria anguillulae* 658
Intraspecific polymorphism in *Metarhizium anisopliae* var. *anisopliae* revealed by analysis of rRNA gene complex and mtDNA RFLPs 1233
Comparison of twenty isolates of the entomopathogen *Paecilomyces farinosus* by analysis of RAPD markers 1254
The effect of plant growth and topography on the aquisition of conidia of the insect pathogen *Metarhizium anisopliae* by larvae of *Phaedon cochleariae* 1365
Improving ecological fitness and environmental stress tolerance of the biocontrol yeast *Candida sake* by manipulation of intracellular sugar alcohol and sugar content 1409
Latent infections and penetration of the bioherbicide agent *Colletotrichum gloeosporioides* f. sp. *malvae* in non-target field crops under controlled environmental conditions 1545
**Bioremediation**
Influence of the carbon, nitrogen and phosphorus source on the solubilization of insoluble metal compounds by *Aspergillus niger* 1050
Spent oyster mushroom substrate performs better than many mushroom mycelia in removing the biocide pentachlorophenol 1552
**Blue-stain fungi**
Comparison of *Ophiostoma huntii* and *O. europhioides* and description of *O. aenigmaticum* sp. nov. 289
***Boletus satanus***
Lectins from mushrooms 897
***Botryotinia fuckeliana***
New genetic markers for *Botrytis cinerea* (*Botryotinia fuckeliana*) 791
***Botrytis cinerea***
Kinetic evaluation of conidial germination of *Botrytis cinerea* by a spectrofluorometric method 320
New genetic markers for *Botrytis cinerea* (*Botryotinia fuckeliana*) 791
Biosynthesis of pathogenicity hydrolytic enzymes by *Botrytis cinerea* during infection of bean leaves and *in vitro* 1017
***Brasiliomyces kumaonensis***
A new variety and two new species of powdery mildews from India 30
***Cacumisporium sigmoideum***
Fungi on submerged wood in Lake Barrine, North Queensland, Australia 739

**Cadmium**
Cadmium and manganese in contrast to calcium reduce yield and nutritional values of the edible mushroom *Pleurotus pulmonarius* 449
**Calcium**
Effects of azole antifungal agents on ionomycin-induced changes in intracellular calcium concentration in *Trichophyton rubrum* 193
Cadmium and manganese in contrast to calcium reduce yield and nutritional values of the edible mushroom *Pleurotus pulmonarius* 449
**Calcium oxalate**
Solubilization of natural gypsum ($CaSO_4.2H_2O$) and the formation of calcium oxalate by *Aspergillus niger* and *Serpula himantioides* 825
***Calonectria multiseptata***
New foliar pathogens of *Eucalyptus* from Australia and Indonesia 527
***Candelabrum brocchiatum***
Fungi on submerged wood in Lake Barrine, North Queensland, Australia 739
***Candelabrum clathrosphaeroides***
*Candelabrum desmidiaceum* and *Candelabrum clathrosphaeroides* spp. nov., additions and key to *Candelabrum* 410
***Candelabrum desmidiaceum***
*Candelabrum desmidiaceum* and *Candelabrum clathrosphaeroides* spp. nov., additions and key to *Candelabrum* 410
***Candida saki***
Improving ecological fitness and environmental stress tolerance of the biocontrol yeast *Candida sake* by manipulation of intracellular sugar alcohol and sugar content 1409
**Carbohydrate utilization**
Distinction between *Beauveria* and *Tolypocladium* by carbohydrate utilization 81
**Carbon nutrition**
Effect of nitrogen and carbon sources on growth and activities of NAD and NADP dependent isocitrate dehydrogenases of *Laccaria bicolor* 427
Influence of the carbon, nitrogen and phosphorus source on the solubilization of insoluble metal compounds by *Aspergillus niger* 1050
***Catenaria anguillulae***
Techniques for selective isolation, semiquantification and rapid virulence testing of *Catenaria anguillulae* 658
**Cellulase production**
Wood degradation, and cellulase and ligninase production, by *Trametes* and other wood-inhabiting basidiomycetes from indigenous forests of Zimbabwe 1399
***Ceratobasidium obscurum***
*Ceratobasidium obscurum*: an atypical *Thanatephorus* species, misinterpreted as an orchid associate 1074
***Cercospora tabebuiae-impetiginosae***
Some foliicolous fungi on *Tabebuia* species 695
***Cerrena meyenii***
Wood degradation, and cellulase and ligninase production, by *Trametes* and other wood-inhabiting basidiomycetes from indigenous forests of Zimbabwe 1399
**Chemotaxonomy**
A chemotaxonomical method based on FAST-profiles for the determination of phenotypic diversity of spruce needle endophytic fungi 1190
**Chestnut blight disease**
Introduction of new genotypes into ascospore progeny of *Cryphonectria parasitica* in the field 685
**Chitinases**
Electrophoretic characterization of chitinases as a tool for the identification of *Trichoderma harzianum* strains 373
**Chitinolytic activity**
Induction of the *Trichoderma harzianum* chitinolytic system is triggered by the chitin monomer, N-acetylglucosamine 1224
**Chitosan**
Possible role of chitosan in the interaction between barley and *Erysiphe graminis* after tetraconazole treatment 599
**Chloromethane**
Chloromethane production by wood-rotting fungi and an estimate of the global flux to the atmosphere 769
***Chondrostereum purpureum***
Seasonal variation in susceptibility of xylem tissue of *Malus*, *Pyrus*, *Prunus*, and *Salix* species to *Chondrostereum purpureum* in New Zealand 881
***Cladobotryum dendroides***
Identification of benzimidazole resistance in *Cladobotryum dendroides* using a PCR-based method 671
***Cladosporium resinae***
Detection of *Amorphotheca resinae* in German soil by an improved selective isolation method 323
**Classification**
UP-PCR analysis and ITS1 ribotyping of strains of *Trichoderma* and *Gliocladium* 933
***Claviceps citrina***
*Claviceps citrina* sp. nov., a parasite of the halophytic grass *Distichlis spicata* from Mexico 850
**Clavicipitaceae**
Molecular characterization of *Myriogenospora atramentosa* and its occurrence on some new hosts 483
***Cochliobolus carbonum***
The two *Cochliobolus* mating type genes are conserved among species but one of them is missing in *C. victoriae* 919
Factors regulating the synthesis of a cyclic peptide pathotoxin produced by *Cochliobolus carbonum* 1381
***Cochliobolus heterostrophus***
Use of green fluorescent protein (GFP) for studying development and fungal-plant interactions in *Cochliobolus heterostrophus* 491
The two *Cochliobolus* mating type genes are conserved among species but one of them is missing in *C. victoriae* 919
***Cochliobolus victoriae***
The two *Cochliobolus* mating type genes are conserved among species but one of them is missing in *C. victoriae* 919
**Coelomycetes**
Some new coelomycetes from Central Brazil 19
***Colletotrichum coccodes***
A nuclease released from *Colletotrichum coccodes* is not a defence gene elicitor in pea tissue 167
***Colletotrichum gloeosporioides***
Latent infections and penetration of the bioherbicide agent *Colletotrichum gloeosporioides* f. sp. *malvae* in non-target field crops under controlled environmental conditions 1545
***Colletotrichum xanthorrhoeae***
*Colletotrichum xanthorrhoeae* sp. nov. on *Xanthorrhoea* in Western Australia 280
***Collybia fusipes***
Structure of *Collybia fusipes* populations in two infected oak stands 361
**Compatibility types**
Influence of spacial scale on population structure of *Stereum sanguinolentum* in Northern Europe 93
**Competition**
Effect of water activity and temperature on competing abilities of common maize fungi 959
**Conidia**
Hydrophobicity and surface electrostatic charge of conidia of the mycoparasite *Coniothyrium minitans* 243
**Conidial germination**
Kinetic evaluation of conidial germination of *Botrytis cinerea* by a spectrofluorometric method 320
**Conidial production**
Accessory conidium production in three species of *Harposporium* and an evaluation of nematophagous members of the genus 891
**Conidiogenesis**
Ultrastructural evidence for two types of proliferation in a single conidiogenous cell of *Septoria chrysanthemella* 368
***Coniochaeta polymegasperma***
*Coniochaeta polymegasperma* and *Delitschia trichodelitschioides*, two new coprophilous ascomycetes 1038
***Coniophora eremophila***
Cultural studies of fungi causing brown rot in heartwood of living lemon trees in Arizona 257
***Conioscypha***
A new hyphomycete genus, *Conioscyphopsis*, from wood submerged in a freshwater stream and a review of *Conioscypha* 308
***Conioscyphopsis australiensis***
A new hyphomycete genus, *Conioscyphopsis*, from wood submerged in a freshwater stream and a review of *Conioscypha* 308
***Coniothyrium minitans***
Hydrophobicity and surface electrostatic charge of conidia of the mycoparasite *Coniothyrium minitans* 243
***Coprinus cinereus***
Mushrooms upright, sideways and inside-out 641
Lectins from mushrooms 897
***Coprinus domesticus***
The role of morphogenetic cell death in the histogenesis of the mycelial cord of *Agaricus bisporus* and in the development of macrofungi 719
**Coprophilous fungi**
*Coniochaeta polymegasperma* and *Delitschia trichodelitschioides*, two new coprophilous ascomycetes 1038

Stimulation of growth and reproduction of *Sphaeronaemella fimicola* by other coprophilous fungi 1055
*Glabrocyphella stercoraria*, a new cyphellaceous fungus from Spain 1265
***Corynespora morindae-tinctoriae***
New species of *Corynespora* 344
***Corynespora nana***
New species of *Corynespora* 344
***Corynespora rosacearum***
New species of *Corynespora* 344
***Cronartium flaccidum***
Use of RFLP and SSCP analysis to differentiate the pine rusts *Cronartium flaccidum* and *Peridermium pini* 666
***Cryphonectria parasitica***
Introduction of new genotypes into ascospore progeny of *Cryphonectria parasitica* in the field 685
***Crypticola clavulifera***
The species and systematic position of *Crypticola* in the Peronosporomycetes, and new names for *Halocrusticida* and species therein 1062
***Crypticola entomophaga***
The species and systematic position of *Crypticola* in the Peronosporomycetes, and new names for *Halocrusticida* and species therein 1062
**Crypticolaceae**
The species and systematic position of *Crypticola* in the Peronosporomycetes, and new names for *Halocrusticida* and species therein 1062
***Cryptosporiopsis melanigena***
*Cryptosporiopsis melanigena* sp. nov., a root-inhabiting fungus of *Quercus robur* and *Q. petraea* 347
***Cryptosporiopsis radicicola***
*Cryptosporiopsis melanigena* sp. nov., a root-inhabiting fungus of *Quercus robur* and *Q. petraea* 347
**Cultivated fungi**
Biochemical and molecular aspects of growth and fruiting of the edible mushroom *Agaricus bisporus* 1297
**Culture**
*In vitro* proliferation of *Glomus fistulosum* intraradical hyphae from mycorrhizal root segments of maize 1067
***Cylindrobasidium evolvens***
Population structure and genetic variation in *Cylindrobasidium evolvens* 1453
***Cylindrocladiella camelliae***
Systematic appraisal of species complexes within *Cylindrocladiella* 273
***Cylindrocladiella elegans***
Systematic appraisal of species complexes within *Cylindrocladiella* 273
***Cylindrocladiella infestans***
Systematic appraisal of species complexes within *Cylindrocladiella* 273
***Cylindrocladiella lageniformis***
Systematic appraisal of species complexes within *Cylindrocladiella* 273
***Cylindrocladiella novae-zelandiae***
Systematic appraisal of species complexes within *Cylindrocladiella* 273
***Cylindrocladiella parva***
Systematic appraisal of species complexes within *Cylindrocladiella* 273
***Cylindrocladiella peruviana***
Systematic appraisal of species complexes within *Cylindrocladiella* 273
***Cylindrocladium multiseptatum***
New foliar pathogens of *Eucalyptus* from Australia and Indonesia 527
***Cystoderma amianthinum***
Fungal succession – unravelling the unpredictable 1
***Dactylaria appendiculata***
Four rare microfungi from the rhizosphere of wheat in the United Kingdom 1487
***Dactylaria lakebarrinensis***
Fungi on submerged wood in Lake Barrine, North Queensland, Australia 739
***Dactylella***
*Orbilia fimicoloides* sp. nov., the teleomorph of *Dactylella* cf. *oxyspora* 99
***Dactylella huisuniana***
*Dactylella huisuniana*, a new nematode-trapping fungus from Taiwan 1269
***Delitschia trichodelitschioides***
*Coniochaeta polymegasperma* and *Delitschia trichodelitschioides*, two new coprophilous ascomycetes 1038
***Dendryphiella arenaria***
A comparative physiological and morphological study of *Dendryphiella salina* and *D. arenaria* in relation to adaptation to life in the sea 1198
***Dendryphiella salina***
A comparative physiological and morphological study of *Dendryphiella salina* and *D. arenaria* in relation to adaptation to life in the sea 1198
**Dermatophyte fungi**
The photodynamic effect of 5-(4-hydroxy-1-butinyl)-2,2′-bithienyl on dermatophytes 1519
**Detoxification**
Detoxification of α-tomatine by *Fusarium solani* 1375
**Development**
Use of green fluorescent protein (GFP) for studying development and fungal-plant interactions in *Cochliobolus heterostrophus* 491
Ultrastructural studies of resting spore development in *Polymyxa graminis* 687
The role of morphogenetic cell death in the histogenesis of the mycelial cord of *Agaricus bisporus* and in the development of macrofungi 719
Developmental abnormalities in benomyl-resistant strains of *Neurospora crassa* 869
Biochemical and molecular aspects of growth and fruiting of the edible mushroom *Agaricus bisporus* 1297
***Dicellomyces calami***
*Dicellomyces calami* sp. nov., from India 1484
***Dictyochaeta uncinata***
New species of *Dictyochaeta* and *Helicoma* from rain forests in Cuba 58
***Dictyonella tabebuiae***
Some foliicolous fungi on *Tabebuia* species 695
***Didymella fabae***
Detection of multiple rRNA-ITS regions in isolates of *Ascochyta* 762
***Didymella viciae***
Detection of multiple rRNA-ITS regions in isolates of *Ascochyta* 762
***Dilophospora alopecuri***
Allozyme analysis of Australian isolates of *Dilophospora alopecuri* 301
**Dimorphism**
Dimorphic transition in *Yarrowia lipolytica* isolated from oil-polluted sea water 553
***Dinemasporium duguetiae***
Some new coelomycetes from Central Brazil 19
**Dispersal**
The orientation of urediniospores of *Uromyces viciae-fabae* during fall and after landing 907
Distribution and dispersal of *Xylaria* endophytes in two tree species in Puerto Rico 944
**Distribution**
*Phellinus noxius* in Taiwan: distribution, host plants and the pH and texture of the rhizosphere soils of infected hosts 1085
**Diversity**
Leaf endophytes of manuka (*Leptospermum scoparium*) 1009
Diversity of *Tiarosporella parca* in Finland, Norway and Switzerland 1163
The occurrence and diversity of ectomycorrhizas of *Larix kaempferi* seedlings on a volcanic mountain in Japan 1503
**DNA**
Molecular characterization of *Myriogenospora atramentosa* and its occurrence on some new hosts 483
Biochemical and molecular aspects of growth and fruiting of the edible mushroom *Agaricus bisporus* 1297
Population structure and genetic variation in *Cylindrobasidium evolvens* 1453
**DNA content**
Development of resting spores on plants inoculated with a dikaryotic resting spore of *Plasmodiophora brassicae* 949
**DNA fingerprinting**
DNA fingerprinting and vegetative compatibility analysis indicate multiple origins for *Verticillium dahliae* race 2 tomato isolates from Ontario, Canada 1089
**DNA hybridization**
Characterization of the *Aspergillus flavus* population within an Illinois maize field 263
**DNAase**
A nuclease released from *Colletotrichum coccodes* is not a defence gene elicitor in pea tissue 167
***Drepanopeziza populorum***
Morphology of *Drepanopeziza* species pathogenic to poplars 1025
***Drepanopeziza punctiformis***
Morphology of *Drepanopeziza* species pathogenic to poplars 1025
***Drepanopeziza tremulae***
Morphology of *Drepanopeziza* species pathogenic to poplars 1025
**dsRNA**
Double-stranded RNA and virus-like particles in the grass endophyte *Epichloë festuca* 914
**Dutch elm disease**
Rare interspecific hybrids in natural populations of the Dutch elm disease pathogens *Ophiostoma ulmi* and *O. novo-ulmi* 45
***Echidnodella memecyli***
Four new foliicolous ascomycetes from Kerala, India 184
**Ecology**
Environmental factors, *in vitro* interactions, and niche overlap between

*Fusarium moniliforme*, *Fusarium proliferatum*, *Aspergillus* and *Penicillium* species from maize grain 831
Effect of simulated acid rain on the occurrence of *Lophodermium* on Japanese black pine needles 1316
A quantitative ecological study on the monocentric soil chytrid, *Rhizophlyctis rosea*, in Provence 1338
Improving ecological fitness and environmental stress tolerance of the biocontrol yeast *Candida sake* by manipulation of intracellular sugar alcohol and sugar content 1409
Fountains of the forest – the interconnectedness between trees and fungi 1441
Occurrence of *Pythium* species in long-term maize and soybean monoculture and maize/soybean rotation 1450

**Ectomycorrhizas**
Spot tests for oxidative enzymes in ectomycorrhizal, wood-, and litter decaying fungi 67
The effect of temperature and inorganic phosphorus supply on growth and acid phosphatase production in arctic and temperate strains of ectomycorrhizal *Hebeloma* spp. in axenic culture 129
Biochemical and morphological modifications during the growth of *Tuber borchii* mycelium 403
Effect of nitrogen and carbon sources on growth and activities of NAD and NADP dependent isocitrate dehydrogenases of *Laccaria bicolor* 427
Variation in the ribosomal DNA internal transcribed spacer of a diverse collection of ectomycorrhizal fungi 859
The uptake and transport of lead in some ectomycorrhizal fungi in culture 953

**Electrophoresis**
Electrophoretic characterization of chitinases as a tool for the identification of *Trichoderma harzianum* strains 373

***Elegantimyces sporidesmiopsis***
*Elegantimyces sporidesmiopsis* gen. et sp. nov. on submerged wood from Hong Kong 239

***Ellisembia opaca***
Fungi on submerged wood in Lake Barrine, North Queensland, Australia 739

**Endogonales**
*Endogone maritima*, a new species in the Endogonales from Poland 1096

***Endogone maritima***
*Endogone maritima*, a new species in the Endogonales from Poland 1096

***Endophragmiella sphaeroproliferata***
New species of *Endophragmiella* and *Sporidesmiella* from Cuba 548

**Endophytes**
Stimulation of taxol production in liquid cultures of *Pestalotiopsis microspora* 461
Endophytic fungi from plants living on gypsum soils as a source of secondary metabolites with antimicrobial activity 755
Distribution and dispersal of *Xylaria* endophytes in two tree species in Puerto Rico 944
Leaf endophytes of manuka (*Leptospermum scoparium*) 1009
Diversity of Norway spruce needle endophytes in various mixed and pure Norway spruce stands 1183
A chemotaxonomical method based on FAST-profiles for the determination of phenotypic diversity of spruce needle endophytic fungi1190

***Enridescalsia speciosa***
*Enridescalsia*, a new genus of conidial fungi from submerged leaves in Cuba 42

**Entomogenous fungi**
Notes on the Laboulbeniales of Sulawesi. The genus *Rickia* 327
*Hirsutella petchabunensis* sp. nov. from Thailand, with a *Helicoma* synanamorph 577
Comparison of twenty isolates of the entomopathogen *Paecilomyces farinosus* by analysis of RAPD markers 1254
The effect of plant growth and topography on the aquisition of conidia of the insect pathogen *Metarhizium anisopliae* by larvae of *Phaedon cochleariae* 1365

***Entonaema siamensis***
*Entonaema* in Thailand 458

**Enzymes**
Biosynthesis of pathogenicity hydrolytic enzymes by *Botrytis cinerea* during infection of bean leaves and *in vitro* 1017
Changes in enzyme activities during early growth of the edible mushroom, *Agaricus bisporus*, in compost 1113

***Epichloë bromicola***
Mating compatibility and phylogenetic relationships among two new species of *Epichloë* and other congeneric European species 1169

***Epichloë festucae***
Double-stranded RNA and virus-like particles in the grass endophyte *Epichloë festuca* 914

***Epichloë sylvatica***
Mating compatibility and phylogenetic relationships among two new species of *Epichloë* and other congeneric European species 1169

***Epichloë typhina***
A new kind of mutualism between fungi and insects 235
Mating compatibility and phylogenetic relationships among two new species of *Epichloë* and other congeneric European species 1169

**Ergot**
*Claviceps citrina* sp. nov., a parasite of the halophytic grass *Distichlis spicata* from Mexico 850

***Erysiphe graminis***
Possible role of chitosan in the interaction between barley and *Erysiphe graminis* after tetraconazole treatment 599

**Ethnomycology**
The iceman's fungi 1153

***Eudarluca caricis***
*Eudarluca caricis*, the teleomorph of the mycoparasite *Sphaerellopsis filum* on blackberry rust *Phragmidium violaceum* 866

***Exserohilum novae-zelandiae***
Four rare microfungi from the rhizosphere of wheat in the United Kingdom 1487

**Extracellular enzymes**
The inhibition of extracellular proteinases from *Aphanomyces* spp. by three different proteinase inhibitors from crayfish blood 820

**Fatty acids**
Diversity of *Tiarosporella parca* in Finland, Norway and Switzerland 1163
Diversity of Norway spruce needle endophytes in various mixed and pure Norway spruce stands 1183
A chemotaxonomical method based on FAST-profiles for the determination of phenotypic diversity of spruce needle endophytic fungi1190
The use of fatty acid signatures to study mycelial interactions between the arbuscular mycorrhizal *Glomus intraradices* and the saprotrophic *Fusarium culmorum* in root-free soil 1491

***Filosporella pinguis***
New species of *Filosporella*, *Pachycladina* and *Pleuropedium* from Canadian streams 750

***Flammulina velutipes***
Lectins from mushrooms 897

**Flavones**
Growth control of different *Fusarium* species by selected flavones and flavonoid mixtures 638

***Fomes fomentarius***
The iceman's fungi 1153

***Fomitopsis spraguei***
Wood degradation, and cellulase and ligninase production, by *Trametes* and other wood-inhabiting basidiomycetes from indigenous forests of Zimbabwe 1399

**Freezing**
Low temperature acclimation and freezing resistance of extraradical VA mycorrhizal hyphae 582

***Fumagospora tabebuiae***
Some foliicolous fungi on *Tabebuia* species 695

**Fumonisin**
Fumonisin production by, and mating populations of, *Fusarium* section *Liseola* isolates from maize in Argentina 141

**Fungal succession**
Fungal succession – unravelling the unpredictable 1

**Fungicide resistance**
Identification of benzimidazole resistance in *Cladobotryum dendroides* using a PCR-based method 671

**Fungicide sensitivity**
Origin of primary infections of grape by *Uncinula necator*: RAPD analysis discriminates two biotypes 283
Arbuscular mycorrhizal fungi in *Citrus sinensis*/*C. limon* treated with Fosetyl-Al and Metalaxyl 677

***Fusarium***
*Aquaphila albicans* gen. et sp. nov., a hyphomycete from submerged wood in the tropics 587
Effect of water activity and temperature on competing abilities of common maize fungi 959

***Fusarium avenaceum***
Growth control of different *Fusarium* species by selected flavones and flavonoid mixtures 638

***Fusarium culmorum***
Growth control of different *Fusarium* species by selected flavones and flavonoid mixtures 638
The use of fatty acid signatures to study mycelial interactions between the arbuscular mycorrhizal *Glomus intraradices* and the saprotrophic *Fusarium culmorum* in root-free soil 1491

***Fusarium graminearum***
Mutants with general growth rate advantages are the predominant morphological mutants to be isolated from the Quorn production plant 221
Growth control of different *Fusarium* species by selected flavones and flavonoid mixtures 638
Environmental factors, *in vitro* interactions, and niche overlap between *Fusarium moniliforme*, *Fusarium proliferatum*, *Aspergillus* and *Penicillium* species from maize grain 831
***Fusarium lateritium***
Analysis of *Fusarium lateritium* using RAPD and rDNA RFPL techniques 1259
***Fusarium moniliforme***
Fumonisin production by, and mating populations of, *Fusarium* section *Liseola* isolates from maize in Argentina 141
Environmental factors, *in vitro* interactions, and niche overlap between *Fusarium moniliforme*, *Fusarium proliferatum*, *Aspergillus* and *Penicillium* species from maize grain 831
***Fusarium nivale***
Growth control of different *Fusarium* species by selected flavones and flavonoid mixtures 638
***Fusarium oxysporum***
Comparison of intra- and extracellular isozyme banding patterns of *Fusarium oxysporum* 1077
***Fusarium poae***
Growth control of different *Fusarium* species by selected flavones and flavonoid mixtures 638
***Fusarium proliferatum***
Fumonisin production by, and mating populations of, *Fusarium* section *Liseola* isolates from maize in Argentina 141
Environmental factors, *in vitro* interactions, and niche overlap between *Fusarium moniliforme*, *Fusarium proliferatum*, *Aspergillus* and *Penicillium* species from maize grain 831
***Fusarium solani***
Comparison of different karyotyping methods in filamentous ascomycetes – a case study of *Nectria haematococcus* 1355
Detoxification of α-tomatine by *Fusarium solani* 1375
***Fusarium subglutinans***
Fumonisin production by, and mating populations of, *Fusarium* section *Liseola* isolates from maize in Argentina 141
**Galacturonase**
Characterization of an endopolygalacturonase produced by the apple scab fungus, *Venturia inaequalis* 313
***Ganoderma***
Isoenzymes of *Ganoderma* species from southern South America 415
***Ganoderma lucidum***
Lectins from mushrooms 897
***Gelasinospora bonaerensis***
A new species of *Gelasinospora* from Argentina 1405
**Genetics**
Morphological and genetic characterisation of *Beauveria* spp. from New Zealand 250
New genetic markers for *Botrytis cinerea* (*Botryotinia fuckeliana*) 791
Recombination pathways in *Phytophthora infestans*: polyploidy resulting from aberrant sexual development and zoospore-mediated heterokaryosis 1245
Biochemical and molecular aspects of growth and fruiting of the edible mushroom *Agaricus bisporus* 1297
Polymorphism of *Het*-genes prevents resource plundering in *Neurospora crassa* 1343
Microinjected antisense *Inf*24 oligonucleotides inhibit appressorium development in *Uromyces* 1513
**Genotypic variability**
Population structure and genetic variation in *Cylindrobasidium evolvens* 1453
**Genotypic variation**
Genetic variation in *Phlebiopsis gigantea* as detected with random amplified microsatellite (RAMS) markers 187
Occurrence of *Gremeniella abietina* var. *abietina* large- and small-tree types in separate Scots pine stands in northern Finland and in the Kola peninsular, Russia 199
Characterization of the *Aspergillus flavus* population within an Illinois maize field 263
Origin of primary infections of grape by *Uncinula necator*: RAPD analysis discriminates two biotypes 283
Use of molecular methods to estimate the size and distribution of mycelial individuals of the ectomycorrhizal basidiomycete *Pisolithus tinctorius* 295
Genetic diversity of *Microdochium nivale* isolates from turfgrass 559
RAPD analysis of three *Alternaria* species pathogenic to crucifers 807
***Gigaspora ramisporophora***
Arbuscular mycorrhizal fungi in *Citrus sinensis*/*C. limon* treated with Fosetyl-Al and Metalaxyl 677
***Gigaspora rosea***
Transformation of the arbuscular mycorrhiza *Gigaspora rosea* by particle bombardment 497
The protein pattern of spores of arbuscular mycorrhizal fungi: comparison of species, isolates and physiological stages 985
***Gilmaniella bambusae***
A new species of *Gilmaniella* from Hong Kong 435
***Glabrocyphella stercoraria***
*Glabrocyphella stercoraria*, a new cyphellaceous fungus from Spain 1265
***Gliocladium***
UP-PCR analysis and ITS1 ribotyping of strains of *Trichoderma* and *Gliocladium* 933
***Gloeocantharellus lateritius***
Rediscovery of two rare agaricoid basidiomycetes 476
***Glomus***
The protein pattern of spores of arbuscular mycorrhizal fungi: comparison of species, isolates and physiological stages 985
***Glomus fistulosum***
*In vitro* proliferation of *Glomus fistulosum* intraradical hyphae from mycorrhizal root segments of maize 1067
***Glomus intraradices***
The use of fatty acid signatures to study mycelial interactions between the arbuscular mycorrhizal *Glomus intraradices* and the saprotrophic *Fusarium culmorum* in root-free soil 1491
***Glomus macrocarpon***
Arbuscular mycorrhizal fungi in *Citrus sinensis*/*C. limon* treated with Fosetyl-Al and Metalaxyl 677
***Gloniella typhae***
Noteworthy Hysteriaceae from southern South America 1101
***Gloniopsis araucana***
Noteworthy Hysteriaceae from southern South America 1101
***Gloniopsis argentinensis***
Noteworthy Hysteriaceae from southern South America 1101
***Gloniopsis praelonga***
Noteworthy Hysteriaceae from southern South America 1101
***Glonium abbreviatum***
Noteworthy Hysteriaceae from southern South America 1101
***Glonium colihuae***
Noteworthy Hysteriaceae from southern South America 1101
***Glonium costesi***
Noteworthy Hysteriaceae from southern South America 1101
***Glonium cumingii***
Noteworthy Hysteriaceae from southern South America 1101
**Glucoamylase**
Purification and characterization of extracellular glucoamylase from the thermophilic *Thermomyces lanuginosa* 568
**Gravitropism**
Mushrooms upright, sideways and inside-out 641
**Green fluorescent protein**
Use of green fluorescent protein (GFP) for studying development and fungal-plant interactions in *Cochliobolus heterostrophus* 491
***Gremeniella abietina***
Occurrence of *Gremeniella abietina* var. *abietina* large- and small-tree types in separate Scots pine stands in northern Finland and in the Kola peninsular, Russia 199
***Grifolia frondosa***
Lectins from mushrooms 897
***Halocrusticida***
The species and systematic position of *Crypticola* in the Peronosporomycetes, and new names for *Halocrusticida* and species therein 1062
***Halodaphnea awabi***
The species and systematic position of *Crypticola* in the Peronosporomycetes, and new names for *Halocrusticida* and species therein 1062
***Halodaphnea hamanaensis***
The species and systematic position of *Crypticola* in the Peronosporomycetes, and new names for *Halocrusticida* and species therein 1062
***Halodaphnea okinawaensis***
The species and systematic position of *Crypticola* in the Peronosporomycetes, and new names for *Halocrusticida* and species therein 1062
***Halodaphnea panulirata***
The species and systematic position of *Crypticola* in the Peronosporomycetes, and new names for *Halocrusticida* and species therein 1062
***Halodaphnea parasitica***
The species and systematic position of *Crypticola* in the Peronosporomycetes, and new names for *Halocrusticida* and species therein 1062

***Harknessia qualeae***
Some new coelomycetes from Central Brazil 19
***Harknessia salvertiana***
Some new coelomycetes from Central Brazil 19
***Harposporium arcuatum***
Accessory conidium production in three species of *Harposporium* and an evaluation of nematophagous members of the genus 891
***Harposporium dicorymbum***
Accessory conidium production in three species of *Harposporium* and an evaluation of nematophagous members of the genus 891
***Harposporium subuliforme***
Accessory conidium production in three species of *Harposporium* and an evaluation of nematophagous members of the genus 891
**Haustoria**
Ultrastructure and lectin-gold cytochemistry of the interaction between the rust fungus *Melampsora euphorbiae* and its host, *Euphorbia peplus* 1387
**HC-toxin**
Factors regulating the synthesis of a cyclic peptide pathotoxin produced by *Cochliobolus carbonum* 1381
***Hebeloma***
The effect of temperature and inorganic phosphorus supply on growth and acid phosphatase production in arctic and temperate strains of ectomycorrhizal *Hebeloma* spp. in axenic culture 129
Utilization of organic nitrogen by ectomycorrhizal *Hebeloma* spp. of arctic and temperate origin 1525
Induction of cold active acid phosphomonoesterase activity at low temperature in psychrotrophic ectomycorrhizal *Hebeloma* spp. 1533
***Helicoma***
*Hirsutella petchabunensis* sp. nov. from Thailand, with a *Helicoma* synanamorph 577
*Aquaphila albicans* gen. et sp. nov., a hyphomycete from submerged wood in the tropics 587
***Helicoma depressispora***
Fungi on submerged wood in Lake Barrine, North Queensland, Australia 739
***Helicoma perelegans***
New species of *Dictyochaeta* and *Helicoma* from rain forests in Cuba 58
***Helicoma pulchra***
New species of *Dictyochaeta* and *Helicoma* from rain forests in Cuba 58
***Helicomyces***
*Aquaphila albicans* gen. et sp. nov., a hyphomycete from submerged wood in the tropics 587
***Hemibeltrania saikawae***
A new species of *Hemibeltrania* from Cuba 930
***Hericium erinaceum***
Lectins from mushrooms 897
***Heterobasidion annosum* (as *"Heterobasidium"* in error**
The saprotrophic wood-degrading abilities of *Heterobasidium annosum* intersterility groups P and S 991
***Heterobasidium* (sic) (= *Heterobasidion*)**
The saprotrophic wood-degrading abilities of *Heterobasidium annosum* intersterility groups P and S 991
***Hirsutella petchabunensis***
*Hirsutella petchabunensis* sp. nov. from Thailand, with a *Helicoma* synanamorph 577
**Homothallism**
Homothallism and heterothallism in *Sordaria brevicollis* 1215
**Host-pathogen relationships**
Detoxification of α-tomatine by *Fusarium solani* 1375
Ultrastructure and lectin-gold cytochemistry of the interaction between the rust fungus *Melampsora euphorbiae* and its host, *Euphorbia peplus* 1387
**Hydrophobicity**
Hydrophobicity and surface electrostatic charge of conidia of the mycoparasite *Coniothyrium minitans* 243
**Hymenochaetaceae**
Chloromethane production by wood-rotting fungi and an estimate of the global flux to the atmosphere 769
**Hypogeous fungi**
Consumption of hypogeous fungi by the mountain brushtail possum (*Trichosurus caninus*) in Eastern Australia 269
**Hysteriaceae**
Noteworthy Hysteriaceae from southern South America 1101
**Identification**
Evaluation of artificial neural networks for fungal identification, employing morphometric data from spores of *Pestalotiopsis* species 975
***Idriella***
*Elegantimyces sporidesmiopsis* gen. et sp. nov. on submerged wood from Hong Kong 239
**Incompatibility**
Polymorphism of *Het*-genes prevents resource plundering in *Neurospora crassa* 1343
**Infection**
Scanning electron microscopy of early infection structure formation by *Puccinia recondita* f. sp. *tritici* on and in susceptible and resistant wheat lines 391
***Inocybe inexpectata***
*Inocybe inexpectata*, a new and unusual species of subgenus *Mallocybe* 479
***Inocybe malençonii***
*Inocybe inexpectata*, a new and unusual species of subgenus *Mallocybe* 479
***Inonotus***
Chloromethane production by wood-rotting fungi and an estimate of the global flux to the atmosphere 769
***Inonotus chihshanyenus***
Two new species of *Inonotus* from Taiwan 788
***Inonotus formosanus***
Two new species of *Inonotus* from Taiwan 788
**Insect association**
A new kind of mutualism between fungi and insects 235
Identification and phylogeny of spore-cyst fungi (*Ascosphaera* spp.) using ribosomal DNA sequences 541
Phylogenetic analysis of ambrosial species in the genus *Raffaelea* based on 18s rDNA sequences 661
**Interaction**
Environmental factors, *in vitro* interactions, and niche overlap between *Fusarium moniliforme*, *Fusarium proliferatum*, *Aspergillus* and *Penicillium* species from maize grain 831
Occurrence of *Pythium* species in long-term maize and soybean monoculture and maize/soybean rotation 1450
**Interactions**
Effect of simulated acid rain on the occurrence of *Lophodermium* on Japanese black pine needles 1316
The use of fatty acid signatures to study mycelial interactions between the arbuscular mycorrhizal *Glomus intraradices* and the saprotrophic *Fusarium culmorum* in root-free soil 1491
**Interspecific hybrids**
Rare interspecific hybrids in natural populations of the Dutch elm disease pathogens *Ophiostoma ulmi* and *O. novo-ulmi* 45
**Intersterility groups**
The saprotrophic wood-degrading abilities of *Heterobasidium annosum* intersterility groups P and S 991
***Irpex***
Wood degradation, and cellulase and ligninase production, by *Trametes* and other wood-inhabiting basidiomycetes from indigenous forests of Zimbabwe 1399
***Ischnoderma resinosum***
Lectins from mushrooms 897
**Isoenzyme analysis**
Isoenzymes of *Ganoderma* species from southern South America 415
Comparison of intra- and extracellular isozyme banding patterns of *Fusarium oxysporum* 1077
Mating compatibility and phylogenetic relationships among two new species of *Epichloë* and other congeneric European species 1169
**Isolation**
Detection of *Amorphotheca resinae* in German soil by an improved selective isolation method 323
***Jamesdicksonia brunkii***
Two species of *Sporisorium* on *Chionachne* in tropical Australia, the first Australian record of *Ustilago brunkii* and its transfer to *Jamesdicksonia* 1203
***Jamesdicksonia obesa***
Two species of *Sporisorium* on *Chionachne* in tropical Australia, the first Australian record of *Ustilago brunkii* and its transfer to *Jamesdicksonia* 1203
**Karyotypes**
Comparison of different karyotyping methods in filamentous ascomycetes – a case study of *Nectria haematococcus* 1355
**Keys**
Distinction between *Beauveria* and *Tolypocladium* by carbohydrate utilization 81
Two new species of *Orphella* from Spain 174
A new hyphomycete genus, *Conioscyphopsis*, from wood submerged in a freshwater stream and a review of *Conioscypha* 308
Notes on the Laboulbeniales of Sulawesi. The genus *Rickia* 327
*Candelabrum desmidiaceum* and *Candelabrum clathrosphaeroides* spp. nov., additions and key to *Candelabrum* 410
A new species of *Gilmaniella* from Hong Kong 435
A new species of *Lindneria* from Italy 502

A survey of the spore-ball-forming smut fungi 513
New freshwater species of *Ascotaiwania* and *Savoryella* from Taiwan 709
New species of *Filosporella*, *Pachycladina* and *Pleuropedium* from Canadian streams 750
*Protophysarum phloiogenum* and a new family in the Physarales 838
A new species of *Hemibeltrania* from Cuba 930
Noteworthy Hysteriaceae from southern South America 1101
Nine new species of *Phanerochaete* from Taiwan 1126
The hyphomycete genus *Acrogenospora*, with two new species and two new combinations 1309
*Meliola icacinacearum* and *M. kerichoensis*, spp. nov. from Kenya 1418
*Dicellomyces calami* sp. nov., from India 1484

**Laboulbeniales**
Notes on the Laboulbeniales of Sulawesi. The genus *Rickia* 327

***Laccaria bicolor***
Effect of nitrogen and carbon sources on growth and activities of NAD and NADP dependent isocitrate dehydrogenases of *Laccaria bicolor* 427

***Laccaria laccata***
The uptake and transport of lead in some ectomycorrhizal fungi in culture 953

**Laccase**
Spot tests for oxidative enzymes in ectomycorrhizal, wood-, and litter decaying fungi 67

***Lactarius deterrimus***
Lectins from mushrooms 897

***Lactarius piperatus***
The uptake and transport of lead in some ectomycorrhizal fungi in culture 953

***Laetiporus sulphureus***
Lectins from mushrooms 897

**Lead**
The uptake and transport of lead in some ectomycorrhizal fungi in culture 953

**Leaf litter**
Fungal biodiversity in dead leaves of fertilized plants of *Dryas octopetala* from a high arctic site 573

**Leaf spot disease**
New species of *Corynespora* 344
Dispersal of *Passalora personata* conidia from groundnut by wind and rain 355

**Lectins**
Lectins from mushrooms 897

***Lembosia humboltiae***
Four new foliicolous ascomycetes from Kerala, India 184

***Lentinellus pseudobarbatus***
Rediscovery of two rare agaricoid basidiomycetes 476

***Lentinula boryana***
Phylogeny and biogeography of *Lentinula* inferred from an expanded rDNA dataset 1041

***Lentinula edodes***
Phylogeny and biogeography of *Lentinula* inferred from an expanded rDNA dataset 1041

***Lentinula lateritia***
Phylogeny and biogeography of *Lentinula* inferred from an expanded rDNA dataset 1041

***Lentinula novaezelandiae***
Phylogeny and biogeography of *Lentinula* inferred from an expanded rDNA dataset 1041

***Leptographium aenigmaticum***
Comparison of *Ophiostoma huntii* and *O. europhioides* and description of *O. aenigmaticum* sp. nov. 289

***Leptospermum scoparium***
Leaf endophytes of manuka (*Leptospermum scoparium*) 1009

**Leptosphaeriaceae**
Phylogenetic studies of the Leptosphaeriaceae, Pleosporaceae and some other Loculoascomycetes based on nuclear ribosomal DNA sequences 151

**Lignin degradation**
Biochemical and molecular characterization of South African strains of *Phanerochaete chrysosporium* 88
Wood degradation, and cellulase and ligninase production, by *Trametes* and other wood-inhabiting basidiomycetes from indigenous forests of Zimbabwe 1399

***Lindtneria hydnoidea***
A new species of *Lindneria* from Italy 502

***Linocarpon elaeidis***
Fungi from Mauritius: *Linocarpon* species on *Pandanus* 1331

***Linocarpon fasciatum***
Fungi from Mauritius: *Linocarpon* species on *Pandanus* 1331

***Linocarpon smilacis***
Six new ascomycetes from Taiwan 228

***Linocarpon spathulatum***
Fungi from Mauritius: *Linocarpon* species on *Pandanus* 1331

***Linocarpon sulcatum***
Fungi from Mauritius: *Linocarpon* species on *Pandanus* 1331

***Lirula macrospora***
Diversity of Norway spruce needle endophytes in various mixed and pure Norway spruce stands 1183
A chemotaxonomical method based on FAST-profiles for the determination of phenotypic diversity of spruce needle endophytic fungi 1190

**Literature review**
One stop mycology 103
One stop mycology 1277
One stop mycology 1421
One stop mycology 1571

**Litter fungi**
Fungal succession – unravelling the unpredictable 1
Spot tests for oxidative enzymes in ectomycorrhizal, wood-, and litter decaying fungi 67

**Loculoascomycetes**
Phylogenetic studies of the Leptosphaeriaceae, Pleosporaceae and some other Loculoascomycetes based on nuclear ribosomal DNA sequences 151

***Lophodermium piceae***
Diversity of Norway spruce needle endophytes in various mixed and pure Norway spruce stands 1183
A chemotaxonomical method based on FAST-profiles for the determination of phenotypic diversity of spruce needle endophytic fungi 1190

***Lophodermium pinastri***
Effect of simulated acid rain on the occurrence of *Lophodermium* on Japanese black pine needles 1316

***Lunulospora curvula***
Effect of dissolved nutrients on two aquatic hyphomycetes growing on leaf litter 998

**Manganese**
Cadmium and manganese in contrast to calcium reduce yield and nutritional values of the edible mushroom *Pleurotus pulmonarius* 449

**Mangrove fungi**
*Schizochytrium limacinum* sp. nov., a new thraustochytrid from a mangrove area in the west Pacific Ocean 439

***Marasmius androsaceus***
Fungal succession – unravelling the unpredictable 1

**Marine fungi**
Dimorphic transition in *Yarrowia lipolytica* isolated from oil-polluted sea water 553
A comparative physiological and morphological study of *Dendryphiella salina* and *D. arenaria* in relation to adaptation to life in the sea 1198

***Marssonina***
Morphology of *Drepanopeziza* species pathogenic to poplars 1025

***Massarina lunispora***
Fungi on submerged wood in Lake Barrine, North Queensland, Australia 739

**Mating reactions**
Fumonisin production by, and mating populations of, *Fusarium* section *Liseola* isolates from maize in Argentina 141
Mating compatibility and phylogenetic relationships among two new species of *Epichloë* and other congeneric European species 1169

**Mating type genes**
The two *Cochliobolus* mating type genes are conserved among species but one of them is missing in *C. victoriae* 919

***Melampsora euphorbiae***
Ultrastructure and lectin-gold cytochemistry of the interaction between the rust fungus *Melampsora euphorbiae* and its host, *Euphorbia peplus* 1387

***Melampsoridium betulinum***
Evidence for resistance of mountain birch (*Betula pubescens* ssp. *czerepanovii*) to birch rust (*Melampsoridium betulinum*) 63

***Melanocephala australiensis***
Fungi on submerged wood in Lake Barrine, North Queensland, Australia 739

***Meliola icacinacearum***
*Meliola icacinacearum* and *M. kerichoensis*, spp. nov. from Kenya 1418

***Meliola kerichoensis***
*Meliola icacinacearum* and *M. kerichoensis*, spp. nov. from Kenya 1418

**Metal solubilization**
Influence of the carbon, nitrogen and phosphorus source on the solubilization of insoluble metal compounds by *Aspergillus niger* 1050

**Metal toxicity**
Cadmium and manganese in contrast to calcium reduce yield and nutritional values of the edible mushroom *Pleurotus pulmonarius* 449
***Metarhizium anisopliae***
Occurrence of *Metarhizium anisopliae* in nests and feeding sites of Australian termites 216
Intraspecific polymorphism in *Metarhizium anisopliae* var. *anisopliae* revealed by analysis of rRNA gene complex and mtDNA RFLPs 1233
The effect of plant growth and topography on the aquisition of conidia of the insect pathogen *Metarhizium anisopliae* by larvae of *Phaedon cochleariae* 1365
***Microdochium nivale***
Genetic diversity of *Microdochium nivale* isolates from turfgrass 559
**Microtubules**
Microtubule depolymerization in *Uromyces appendiculatus* by three new antineoplastic drugs: combretastatin A-4, dolastatin 10 and halichondrin B 378
**Mineral recycling**
Solubilization of natural gypsum ($CaSO_4.2H_2O$) and the formation of calcium oxalate by *Aspergillus niger* and *Serpula himantioides* 825
***Minimidochium parvum***
*Minimidochium parvum*, a new species of hyphomycete from Argentina 383
**Mitochondrial DNA**
Autonomously replicating sequences (ARS) from mitochondrial DNA of *Phytophthora nicotianae*: functional and structural analysis 1133
Intraspecific polymorphism in *Metarhizium anisopliae* var. *anisopliae* revealed by analysis of rRNA gene complex and mtDNA RFLPs 1233
***Monacrosporium psychrophilum***
Four rare microfungi from the rhizosphere of wheat in the United Kingdom 1487
***Monochaetia***
Evaluation of artificial neural networks for fungal identification, employing morphometric data from spores of *Pestalotiopsis* species 975
***Monographella nivalis***
Genetic diversity of *Microdochium nivale* isolates from turfgrass 559
**Morphogenesis**
Mushrooms upright, sideways and inside-out 641
**Morphology**
Morphological and genetic characterisation of *Beauveria* spp. from New Zealand 250
Biochemical and morphological modifications during the growth of *Tuber borchii* mycelium 403
Observations on development, morphology and biology in *Phaeocollybia* 615
Differentiation of *Scytalidium thermophilum* isolates by thermogravimetric analyses of their biomass 843
Morphology of *Drepanopeziza* species pathogenic to poplars 1025
A comparative physiological and morphological study of *Dendryphiella salina* and *D. arenaria* in relation to adaptation to life in the sea 1198
***Mortierella umbellata***
Zygospore formation in *Mortierella umbellata* 593
***Mucor piriformis***
Factors affecting the rate and mode of germination of *Mucor piriformis* zygospores 815
**Mushroom farming**
Genetic comparison of the aggressive weed mould strains of *Trichoderma harzianum* from mushroom compost in North America and the British Isles 385
Identification of benzimidazole resistance in *Cladobotryum dendroides* using a PCR-based method 671
Changes in enzyme activities during early growth of the edible mushroom, *Agaricus bisporus*, in compost 1113
*Agaricus bisporus* browning: a review 1459
Analysis of *Agaricus bisporus* tyrosinase activation and phenolics utilization during *Pseudomonas tolaasii* or tolaasin-induced discolouration 1497
**Mutants**
Mutants with general growth rate advantages are the predominant morphological mutants to be isolated from the Quorn production plant 221
New genetic markers for *Botrytis cinerea* (*Botryotinia fuckeliana*) 791
**Mutualism**
A new kind of mutualism between fungi and insects 235
**Mycelial cords**
The role of morphogenetic cell death in the histogenesis of the mycelial cord of *Agaricus bisporus* and in the development of macrofungi 719
**Mycelium development**
Biochemical and morphological modifications during the growth of *Tuber borchii* mycelium 403
***Mycena galopus***
Fungal succession – unravelling the unpredictable 1
***Mycocalia reticulata***
Fungi on submerged wood in Lake Barrine, North Queensland, Australia 739
**Mycoparasites**
*Eudarluca caricis*, the teleomorph of the mycoparasite *Sphaerellopsis filum* on blackberry rust *Phragmidium violaceum* 866
**Mycophagy**
Consumption of hypogeous fungi by the mountain brushtail possum (*Trichosurus caninus*) in Eastern Australia 269
**Mycoprotein**
Mutants with general growth rate advantages are the predominant morphological mutants to be isolated from the Quorn production plant 221
**Mycorrhizal fungi**
Consumption of hypogeous fungi by the mountain brushtail possum (*Trichosurus caninus*) in Eastern Australia 269
Use of molecular methods to estimate the size and distribution of mycelial individuals of the ectomycorrhizal basidiomycete *Pisolithus tinctorius* 295
Low temperature acclimation and freezing resistance of extraradical VA mycorrhizal hyphae 582
Arbuscular mycorrhizal fungi in *Citrus sinensis*/*C. limon* treated with Fosetyl-Al and Metalaxyl 677
The protein pattern of spores of arbuscular mycorrhizal fungi: comparison of species, isolates and physiological stages 985
*In vitro* proliferation of *Glomus fistulosum* intraradical hyphae from mycorrhizal root segments of maize 1067
The use of fatty acid signatures to study mycelial interactions between the arbuscular mycorrhizal *Glomus intraradices* and the saprotrophic *Fusarium culmorum* in root-free soil 1491
The occurrence and diversity of ectomycorrhizas of *Larix kaempferi* seedlings on a volcanic mountain in Japan 1503
Utilization of organic nitrogen by ectomycorrhizal *Heboloma* spp. of arctic and temperate origin 1525
Induction of cold active acid phosphomonoesterase activity at low temperature in psychrotrophic ectomycorrhizal *Hebeloma* spp. 1533
Fluorescently-primed *in situ* PCR in arbuscular mycorrhizas 1540
**Mycorrhizas**
Transformation of the arbuscular mycorrhiza *Gigaspora rosea* by particle bombardment 497
***Mycosphaerella tasmaniensis***
New foliar pathogens of *Eucalyptus* from Australia and Indonesia 527
***Mycosphaerella vespa***
*Mycosphaerella vespa* sp. nov. from diseased *Eucalyptus* leaves in Australia 1274
**Mycotoxins**
Sporidesmin production by *Pithomyces chartarum* isolates from Australia, Brazil, New Zealand and Uruguay 163
Characterization of the *Aspergillus flavus* population within an Illinois maize field 263
Molecular characterization of *Myriogenospora atramentosa* and its occurrence on some new hosts 483
Ochratoxin A accumulation in cultures of *Penicillium verrucosum* with the antagonistic yeast *Pichia anomala* and *Saccharomyces cerevisiae* 1003
***Myriogenospora atramentosa***
Molecular characterization of *Myriogenospora atramentosa* and its occurrence on some new hosts 483
***Nectria camelliae***
Systematic appraisal of species complexes within *Cylindrocladiella* 273
***Nectria haematococcus***
Comparison of different karyotyping methods in filamentous ascomycetes – a case study of *Nectria haematococcus* 1355
**Nematode fungi**
Techniques for selective isolation, semiquantification and rapid virulence testing of *Catenaria anguillulae* 658
New nematophagous fungi from Azerbaijan 683
Accessory conidium production in three species of *Harposporium* and an evaluation of nematophagous members of the genus 891
*Dactylella huisuniana*, a new nematode-trapping fungus from Taiwan 1269
***Nematophagus tabrizicus***
New nematophagous fungi from Azerbaijan 683
***Neocallimastix frontalis***
Attachment to cellulose and maturation of attached thalli in the anaerobic rumen fungus *Neocallimastix frontalis* strain RE1 1119
***Neurospora crassa***
Developmental abnormalities in benomyl-resistant strains of *Neurospora crassa* 869

Polymorphism of *Het*-genes prevents resource plundering in *Neurospora crassa* 1343

**New combinations**

The species and systematic position of *Crypticola* in the Peronosporomycetes, and new names for *Halocrusticida* and species therein 1062

*Ceratobasidium obscurum*: an atypical *Thanatephorus* species, misinterpreted as an orchid associate 1074

Two species of *Sporisorium* on *Chionachne* in tropical Australia, the first Australian record of *Ustilago brunkii* and its transfer to *Jamesdicksonia* 1203

The hyphomycete genus *Acrogenospora*, with two new species and two new combinations 1309

**New families**

The species and systematic position of *Crypticola* in the Peronosporomycetes, and new names for *Halocrusticida* and species therein 1062

**New family**

*Protophysarum phloiogenum* and a new family in the Physarales 838

**New genera**

*Arthrowallemia*, a new species of hyphomycetes from tropical litter 16

*Enridescalsia*, a new genus of conidial fungi from submerged leaves in Cuba 42

*Pseudophragmotrichum cubense* gen. et sp. nov. on culms of *Oncidium lucidum* from Cuba 179

*Elegantimyces sporidesmiopsis* gen. et sp. nov. on submerged wood from Hong Kong 239

A new hyphomycete genus, *Conioscyphopsis*, from wood submerged in a freshwater stream and a review of *Conioscypha* 308

*Stipitocyphella keniensis* gen. et sp. nov. from East Africa and a missing link in the basidiomycetes 505

*Aquaphila albicans* gen. et sp. nov., a hyphomycete from submerged wood in the tropics 587

*Ancorasporella*, a new genus of hyphomycetes from Mexico 736

The species and systematic position of *Crypticola* in the Peronosporomycetes, and new names for *Halocrusticida* and species therein 1062

*Stratiphoromyces brunneisporus* gen. et sp. nov., an undescribed dematiaceous hyphomycete on *Licuala* palms 1149

**New hosts**

Some new coelomycetes from Central Brazil 19

**New species**

*Arthrowallemia*, a new species of hyphomycetes from tropical litter 16

Some new coelomycetes from Central Brazil 19

A new variety and two new species of powdery mildews from India 30

*Enridescalsia*, a new genus of conidial fungi from submerged leaves in Cuba 42

New species of *Dictyochaeta* and *Helicoma* from rain forests in Cuba 58

*Orbilia fimicoloides* sp. nov., the teleomorph of *Dactylella* cf. *oxyspora* 99

Two new species of rotifer-attacking fungi, *Rotiferophthora*, from Japan and records of *Verticillium bactrosporum* in rotifer hosts 145

New species of *Pseudocercospora* from India 157

Two new species of *Orphella* from Spain 174

*Pseudophragmotrichum cubense* gen. et sp. nov. on culms of *Oncidium lucidum* from Cuba 179

Four new foliicolous ascomycetes from Kerala, India 184

Isolation of a new species of rotifer-attacking *Olpidium* 206

Six new ascomycetes from Taiwan 228

*Elegantimyces sporidesmiopsis* gen. et sp. nov. on submerged wood from Hong Kong 239

*Colletotrichum xanthorrhoeae* sp. nov. on *Xanthorrhoea* in Western Australia 280

Comparison of *Ophiostoma huntii* and *O. europhioides* and description of *O. aenigmaticum* sp. nov. 289

A new hyphomycete genus, *Conioscyphopsis*, from wood submerged in a freshwater stream and a review of *Conioscypha* 308

Notes on the Laboulbeniales of Sulawesi. The genus *Rickia* 327

New species of *Corynespora* 344

*Cryptosporiopsis melanigena* sp. nov., a root-inhabiting fungus of *Quercus robur* and *Q. petraea* 347

*Minimidochium parvum*, a new species of hyphomycete from Argentina 383

*Antrodia lalashana* sp. nov. and *Antrodiella formosana* sp. nov. in Taiwan 400

*Candelabrum desmidiaceum* and *Candelabrum clathrosphaeroides* spp. nov., additions and key to *Candelabrum* 410

A new species of *Gilmaniella* from Hong Kong 435

*Schizochytrium limacinum* sp. nov., a new thraustochytrid from a mangrove area in the west Pacific Ocean 439

*Entonaema* in Thailand 458

*Inocybe inexpectata*, a new and unusual species of subgenus *Mallocybe* 479

A new species of *Lindneria* from Italy 502

*Stipitocyphella keniensis* gen. et sp. nov. from East Africa and a missing link in the basidiomycetes 505

A new species of *Ascotricha* from Spanish soil 510

New foliar pathogens of *Eucalyptus* from Australia and Indonesia 527

New species of *Endophragmiella* and *Sporidesmiella* from Cuba 548

*Hirsutella petchabunensis* sp. nov. from Thailand, with a *Helicoma* synanamorph 577

*Aquaphila albicans* gen. et sp. nov., a hyphomycete from submerged wood in the tropics 587

New nematophagous fungi from Azerbaijan 683

Some foliicolous fungi on *Tabebuia* species 695

New freshwater species of *Ascotaiwania* and *Savoryella* from Taiwan 709

*Ancorasporella*, a new genus of hyphomycetes from Mexico 736

Fungi on submerged wood in Lake Barrine, North Queensland, Australia 739

New species of *Filosporella*, *Pachycladina* and *Pleuropedium* from Canadian streams 750

Two new species of *Inonotus* from Taiwan 738

*Penicillium radicum* sp. nov. from the rhizosphere of Australian wheat 801

*Claviceps citrina* sp. nov., a parasite of the halophytic grass *Distichlis spicata* from Mexico 850

A new species of *Hemibeltrania* from Cuba 930

*Coniochaeta polymegasperma* and *Delitschia trichodelitschioides*, two new coprophilous ascomycetes 1038

*Endogone maritima*, a new species in the Endogonales from Poland 1096

Noteworthy Hysteriaceae from southern South America 1101

New *Puccinia* species on *Baccharis* from Equador and Costa Rica 1108

Nine new species of *Phanerochaete* from Taiwan 1126

Three new species of *Rotiferophthora* attacking bdelloid rotifers in Japan 1142

*Stratiphoromyces brunneisporus* gen. et sp. nov., an undescribed dematiaceous hyphomycete on *Licuala* palms 1149

Mating compatibility and phylogenetic relationships among two new species of *Epichloë* and other congeneric European species 1169

Two species of *Sporisorium* on *Chionachne* in tropical Australia, the first Australian record of *Ustilago brunkii* and its transfer to *Jamesdicksonia* 1203

Fungi from Mauritius: *Rubikia splendida* sp. nov., a coelomycete with unusual features 1242

*Glabrocyphella stercoraria*, a new cyphellaceous fungus from Spain 1265

*Dactylella huisuniana*, a new nematode-trapping fungus from Taiwan 1269

*Mycosphaerella vespa* sp. nov. from diseased *Eucalyptus* leaves in Australia 1274

The hyphomycete genus *Acrogenospora*, with two new species and two new combinations 1309

Fungi from Mauritius: *Anthostomella* species on *Pandanus* 1319

Fungi from Mauritius: three *Astrocystis* species from *Pandanus* 1325

*Torrubiella dimorpha*, a new species of spider parasite from Taiwan 1350

A new species of *Gelasinospora* from Argentina 1405

*Meliola icacinacearum* and *M. kerichoensis*, spp. nov. from Kenya 1418

*Dicellomyces calami* sp. nov., from India 1484

**New varieties**

A new variety and two new species of powdery mildews from India 30

**Nitrogen nutrition**

Effect of nitrogen and carbon sources on growth and activities of NAD and NADP dependent isocitrate dehydrogenases of *Laccaria bicolor* 427

Influence of the carbon, nitrogen and phosphorus source on the solubilization of insoluble metal compounds by *Aspergillus niger* 1050

Utilization of organic nitrogen by ectomycorrhizal *Hebeloma* spp. of arctic and temperate origin 1525

***Nitschkia phaeospora***

Six new ascomycetes from Taiwan 228

**Nutrition**

Effect of dissolved nutrients on two aquatic hyphomycetes growing on leaf litter 998

**Obituary**

John Malcolm ('Jim') Hirst, D. S. C., B.Sc., Ph.D., F. I. Biol., C. Biol., F.R.S., 1921–1997: an appreciation 1568

**Ochratoxin**

Ochratoxin A accumulation in cultures of *Penicillium verrucosum* with the antagonistic yeast *Pichia anomala* and *Saccharomyces cerevisiae* 1003

**Oil**

Dimorphic transition in *Yarrowia lipolytica* isolated from oil-polluted sea water 553

***Olpidium brassicae***

Analysis of ribosomal DNA sequences of *Polymyxa* species and related fungi and the development of genus- and species-specific PCR primers 965

***Olpidium paradoxum***
Isolation of a new species of rotifer-attacking *Olpidium* 206
**Oomycetes**
Why oomycetes have not stopped being fungi 767
***Ophiodothella cyclobalanopsidis***
Six new ascomycetes from Taiwan 228
***Ophiostoma***
Phylogenetic analysis of ambrosial species in the genus *Raffaelea* based on 18s rDNA sequences 661
***Ophiostoma aenigmaticum***
Comparison of *Ophiostoma huntii* and *O. europhioides* and description of *O. aenigmaticum* sp. nov. 289
***Ophiostoma europhioides***
Comparison of *Ophiostoma huntii* and *O. europhioides* and description of *O. aenigmaticum* sp. nov. 289
***Ophiostoma huntii***
Comparison of *Ophiostoma huntii* and *O. europhioides* and description of *O. aenigmaticum* sp. nov. 289
***Ophiostoma novo-ulmi***
Rare interspecific hybrids in natural populations of the Dutch elm disease pathogens *Ophiostoma ulmi* and *O. novo-ulmi* 45
***Ophiostoma ulmi***
Rare interspecific hybrids in natural populations of the Dutch elm disease pathogens *Ophiostoma ulmi* and *O. novo-ulmi* 45
**Opinion**
Why oomycetes have not stopped being fungi 767
***Orbilia fimicola***
*Orbilia fimicoloides* sp. nov., the teleomorph of *Dactylella* cf. *oxyspora* 99
***Orbilia fimicoloides***
*Orbilia fimicoloides* sp. nov., the teleomorph of *Dactylella* cf. *oxyspora* 99
**Organohalogen emissions**
Chloromethane production by wood-rotting fungi and an estimate of the global flux to the atmosphere 769
***Orphella catalaunica***
Two new species of *Orphella* from Spain 174
***Orphella helicospora***
Two new species of *Orphella* from Spain 174
***Otidia onotica***
The role of morphogenetic cell death in the histogenesis of the mycelial cord of *Agaricus bisporus* and in the development of macrofungi 719
**Ozone depletion**
Chloromethane production by wood-rotting fungi and an estimate of the global flux to the atmosphere 769
***Pachycladina parva***
New species of *Filosporella*, *Pachycladina* and *Pleuropedium* from Canadian streams 750
***Paecilomyces farinosus***
Comparison of twenty isolates of the entomopathogen *Paecilomyces farinosus* by analysis of RAPD markers 1254
***Paecilomyces fumosoroseus***
Intraspecific diversity in *Paecilomyces fumosoroseus* 209
***Passalora personata***
Dispersal of *Passalora personata* conidia from groundnut by wind and rain 355
**Pathogenesis**
Detoxification of α-tomatine by *Fusarium solani* 1375
Factors regulating the synthesis of a cyclic peptide pathotoxin produced by *Cochliobolus carbonum* 1381
Latent infections and penetration of the bioherbicide agent *Colletotrichum gloeosporioides* f. sp. *malvae* in non-target field crops under controlled environmental conditions 1545
**Pathogenicity**
A nuclease released from *Colletotrichum coccodes* is not a defence gene elicitor in pea tissue 167
Occurrence of *Gremeniella abietina* var. *abietina* large- and small-tree types in separate Scots pine stands in northern Finland and in the Kola peninsular, Russia 199
Characterization of *Aphanomyces euteiches* strains based on pathogenicity tests and random amplified polymorphic DNA analyses 465
Seasonal variation in susceptibility of xylem tissue of *Malus*, *Pyrus*, *Prunus*, and *Salix* species to *Chondrostereum purpureum* in New Zealand 881
The two *Cochliobolus* mating type genes are conserved among species but one of them is missing in *C. victoriae* 919
Biosynthesis of pathogenicity hydrolytic enzymes by *Botrytis cinerea* during infection of bean leaves and *in vitro* 1017
Analysis of *Fusarium lateritium* using RAPD and rDNA RFPL techniques 1259
***Paxillus involutus***
The uptake and transport of lead in some ectomycorrhizal fungi in culture 953
**Pectinases**
Characterization of an endopolygalacturonase produced by the apple scab fungus, *Venturia inaequalis* 313
***Penicillium***
Environmental factors, *in vitro* interactions, and niche overlap between *Fusarium moniliforme*, *Fusarium proliferatum*, *Aspergillus* and *Penicillium* species from maize grain 831
Effect of water activity and temperature on competing abilities of common maize fungi 959
***Penicillium hordei***
The use of fatty acid signatures to study mycelial interactions between the arbuscular mycorrhizal *Glomus intraradices* and the saprotrophic *Fusarium culmorum* in root-free soil 1491
***Penicillium radicum***
*Penicillium radicum* sp. nov. from the rhizosphere of Australian wheat 801
***Penicillium verrucosum***
Ochratoxin A accumulation in cultures of *Penicillium verrucosum* with the antagonistic yeast *Pichia anomala* and *Saccharomyces cerevisiae* 1003
***Peridermium pini***
Use of RFLP and SSCP analysis to differentiate the pine rusts *Cronartium flaccidum* and *Peridermium pini* 666
**Peronosporomycetes**
The species and systematic position of *Crypticola* in the Peronosporomycetes, and new names for *Halocrusticida* and species therein 1062
***Pestalotiopsis***
Evaluation of artificial neural networks for fungal identification, employing morphometric data from spores of *Pestalotiopsis* species 975
***Pestalotiopsis microspora***
Stimulation of taxol production in liquid cultures of *Pestalotiopsis microspora* 461
**Pesticides**
Spent oyster mushroom substrate performs better than many mushroom mycelia in removing the biocide pentachlorophenol 1552
***Peziza ostracoderma***
The role of morphogenetic cell death in the histogenesis of the mycelial cord of *Agaricus bisporus* and in the development of macrofungi 719
***Phaeoacremonium aleophilum***
Partial ribosomal DNA sequences show an important divergence between *Phaeoacremonium* species isolated from *Vitis vinifera* 631
***Phaeoacremonium angustius***
Partial ribosomal DNA sequences show an important divergence between *Phaeoacremonium* species isolated from *Vitis vinifera* 631
***Phaeoacremonium chlamydosporum***
Partial ribosomal DNA sequences show an important divergence between *Phaeoacremonium* species isolated from *Vitis vinifera* 631
***Phaeoacremonium parasiticum***
Partial ribosomal DNA sequences show an important divergence between *Phaeoacremonium* species isolated from *Vitis vinifera* 631
***Phaeoacremonium verrucosa***
Partial ribosomal DNA sequences show an important divergence between *Phaeoacremonium* species isolated from *Vitis vinifera* 631
***Phaeocollybia***
Observations on development, morphology and biology in *Phaeocollybia* 615
***Phaeotrametes decipiens***
Wood degradation, and cellulase and ligninase production, by *Trametes* and other wood-inhabiting basidiomycetes from indigenous forests of Zimbabwe 1399
***Phanerochaete argillacea***
Nine new species of *Phanerochaete* from Taiwan 1126
***Phanerochaete capitata***
Nine new species of *Phanerochaete* from Taiwan 1126
***Phanerochaete chrysosporium***
Biochemical and molecular characterization of South African strains of *Phanerochaete chrysosporium* 88
***Phanerochaete eburnea***
Nine new species of *Phanerochaete* from Taiwan 1126
***Phanerochaete flavidogrisea***
Nine new species of *Phanerochaete* from Taiwan 1126
***Phanerochaete fulva***
Nine new species of *Phanerochaete* from Taiwan 1126
***Phanerochaete hyphocystidiata***
Nine new species of *Phanerochaete* from Taiwan 1126
***Phanerochaete reflexa***
Nine new species of *Phanerochaete* from Taiwan 1126
***Phanerochaete rubescens***
Nine new species of *Phanerochaete* from Taiwan 1126
***Phanerochaete suballantoidea***
Nine new species of *Phanerochaete* from Taiwan 1126

***Phellinus***
Chloromethane production by wood-rotting fungi and an estimate of the global flux to the atmosphere 769
***Phellinus noxius***
*Phellinus noxius* in Taiwan: distribution, host plants and the pH and texture of the rhizosphere soils of infected hosts 1085
***Phlebiopsis gigantea***
Genetic variation in *Phlebiopsis gigantea* as detected with random amplified microsatellite (RAMS) markers 187
**Phospholipds**
The use of fatty acid signatures to study mycelial interactions between the arbuscular mycorrhizal *Glomus intraradices* and the saprotrophic *Fusarium culmorum* in root-free soil 1491
**Phosphorus metabolism**
Induction of cold active acid phosphomonoesterase activity at low temperature in psychrotrophic ectomycorrhizal *Hebeloma* spp. 1533
**Phosphorus nutrition**
Influence of the carbon, nitrogen and phosphorus source on the solubilization of insoluble metal compounds by *Aspergillus niger* 1050
***Phragmidium violaceum***
*Eudarluca caricis*, the teleomorph of the mycoparasite *Sphaerellopsis filum* on blackberry rust *Phragmidium violaceum* 866
***Phyllosticta xylopiae-sericeae***
Some new coelomycetes from Central Brazil 19
**Phylogeny**
Phylogenetic studies of the Leptosphaeriaceae, Pleosporaceae and some other Loculoascomycetes based on nuclear ribosomal DNA sequences 151
Variation in the ITS and IGS regions of ribosomal DNA among the biological species of European *Armillaria* 533
Identification and phylogeny of spore-cyst fungi (*Ascosphaera* spp.) using ribosomal DNA sequences 541
Intraspecific genetic variation of *Stagonospora avenae* and its differentiation from *S. nodorum* 607
Partial ribosomal DNA sequences show an important divergence between *Phaeoacremonium* species isolated from *Vitis vinifera* 631
Phylogenetic analysis of ambrosial species in the genus *Raffaelea* based on 18s rDNA sequences 661
Analysis of ribosomal DNA sequences of *Polymyxa* species and related fungi and the development of genus- and species-specific PCR primers 965
Phylogeny and biogeography of *Lentinula* inferred from an expanded rDNA dataset 1041
Mating compatibility and phylogenetic relationships among two new species of *Epichloë* and other congeneric European species 1169
***Physalospora palmicola***
Six new ascomycetes from Taiwan 228
***Physalospora smilacis***
Six new ascomycetes from Taiwan 228
**Physarales**
*Protophysarum phloiogenum* and a new family in the Physarales 838
**Physiology**
A comparative physiological and morphological study of *Dendryphiella salina* and *D. arenaria* in relation to adaptation to life in the sea 1198
***Phytophthora infestans***
Recombination pathways in *Phytophthora infestans*: polyploidy resulting from aberrant sexual development and zoospore-mediated heterokaryosis 1245
***Phytophthora medicaginis***
Specific PCR based detection of *Phytophthora medicaginis* using the intergenic spacer region of the ribosomal DNA 73
***Phytophthora nicotianae***
Autonomously replicating sequences (ARS) from mitochondrial DNA of *Phytophthora nicotianae*: functional and structural analysis 1133
***Phytophthora parasitica***
Germination triggers of zoospore cysts of *Aphanomyces euteiches* and *Phytophthora parasitica* 33
***Pichia anamola***
Ochratoxin A accumulation in cultures of *Penicillium verrucosum* with the antagonistic yeast *Pichia anomala* and *Saccharomyces cerevisiae* 1003
***Piptoporus betulinus***
The iceman's fungi 1153
***Pisolithus tinctorius***
Use of molecular methods to estimate the size and distribution of mycelial individuals of the ectomycorrhizal basidiomycete *Pisolithus tinctorius* 295
The uptake and transport of lead in some ectomycorrhizal fungi in culture 953
***Pithomyces chartarum***
Sporidesmin production by *Pithomyces chartarum* isolates from Australia, Brazil, New Zealand and Uruguay 163
***Plasmodiophora brassicae***
Development of resting spores on plants inoculated with a dikaryotic resting spore of *Plasmodiophora brassicae* 949
Analysis of ribosomal DNA sequences of *Polymyxa* species and related fungi and the development of genus- and species-specific PCR primers 965
***Pleomassaria siparia***
Relationship between *Prosthemium betulinum* and *Pleomassaria siparia* 1509
**Pleosporaceae**
Phylogenetic studies of the Leptosphaeriaceae, Pleosporaceae and some other Loculoascomycetes based on nuclear ribosomal DNA sequences 151
***Pleurocatena acicularis***
Four rare microfungi from the rhizosphere of wheat in the United Kingdom 1487
***Pleuropedium macrum***
New species of *Filosporella*, *Pachycladina* and *Pleuropedium* from Canadian streams 750
***Pleurothecium recurvatum***
Fungi on submerged wood in Lake Barrine, North Queensland, Australia 739
***Pleurotus ostreatus***
Transformation of the edible fungi, *Pleurotus ostreatus* and *Volvariella volvacea* 876
***Pleurotus pulmonarius***
Cadmium and manganese in contrast to calcium reduce yield and nutritional values of the edible mushroom *Pleurotus pulmonarius* 449
Spent oyster mushroom substrate performs better than many mushroom mycelia in removing the biocide pentachlorophenol 1552
***Podosphaera clandestina* var. *cydonia***
A new variety and two new species of powdery mildews from India 30
**Pollution**
Effect of simulated acid rain on the occurrence of *Lophodermium* on Japanese black pine needles 1316
***Polychaeton tabebuiae***
Some foliicolous fungi on *Tabebuia* species 695
**Polymerase chain reaction**
Specific PCR based detection of *Phytophthora medicaginis* using the intergenic spacer region of the ribosomal DNA 73
Phylogenetic studies of the Leptosphaeriaceae, Pleosporaceae and some other Loculoascomycetes based on nuclear ribosomal DNA sequences 151
Variation in the ITS and IGS regions of ribosomal DNA among the biological species of European *Armillaria* 533
Identification and phylogeny of spore-cyst fungi (*Ascosphaera* spp.) using ribosomal DNA sequences 541
Genetic diversity of *Microdochium nivale* isolates from turfgrass 559
Identification of benzimidazole resistance in *Cladobotryum dendroides* using a PCR-based method 671
Detection of multiple rRNA-ITS regions in isolates of *Ascochyta* 762
Molecular analysis confirms morphological reclassification of *Rhizopogon* 855
The two *Cochliobolus* mating type genes are conserved among species but one of them is missing in *C. victoriae* 919
UP-PCR analysis and ITS1 ribotyping of strains of *Trichoderma* and *Gliocladium* 933
Analysis of ribosomal DNA sequences of *Polymyxa* species and related fungi and the development of genus- and species-specific PCR primers 965
A new species of *Gelasinospora* from Argentina 1405
Fluorescently-primed *in situ* PCR in arbuscular mycorrhizas 1540
***Polymyxa betae***
Analysis of ribosomal DNA sequences of *Polymyxa* species and related fungi and the development of genus- and species-specific PCR primers 965
***Polymyxa graminis***
Ultrastructural studies of resting spore development in *Polymyxa graminis* 687
Analysis of ribosomal DNA sequences of *Polymyxa* species and related fungi and the development of genus- and species-specific PCR primers 965
**Polyphenol oxidase production**
Spot tests for oxidative enzymes in ectomycorrhizal, wood-, and litter decaying fungi 67

**Population structure**
Influence of spacial scale on population structure of *Stereum sanguinolentum* in Northern Europe 93
Structure of *Collybia fusipes* populations in two infected oak stands 361
**Powdery mildews**
A new variety and two new species of powdery mildews from India 30
**Preservatives**
Spent oyster mushroom substrate performs better than many mushroom mycelia in removing the biocide pentachlorophenol 1552
**Presidential address**
Fungal succession – unravelling the unpredictable 1
Mushrooms upright, sideways and inside-out 641
Fountains of the forest – the interconnectedness between trees and fungi 1441
***Prosthemium betulinum***
Relationship between *Prosthemium betulinum* and *Pleomassaria siparia* 1509
**Protein profiles**
The protein pattern of spores of arbuscular mycorrhizal fungi: comparison of species, isolates and physiological stages 985
**Proteinase inhibitors**
The inhibition of extracellular proteinases from *Aphanomyces* spp. by three different proteinase inhibitors from crayfish blood 820
**Protophysaraceae**
*Protophysarum phloiogenum* and a new family in the Physarales 838
***Protophysarum phloiogenum***
*Protophysarum phloiogenum* and a new family in the Physarales 838
***Pseudocercospora asiatica***
New species of *Pseudocercospora* from India 157
***Pseudocercospora melochiigena***
New species of *Pseudocercospora* from India 157
***Pseudocercospora operculinae***
New species of *Pseudocercospora* from India 157
***Pseudocercospora tabebuiae-roseo-albae***
Some foliicolous fungi on *Tabebuia* species 695
***Pseudocercospora trewiae-nodiflorae***
New species of *Pseudocercospora* from India 157
***Pseudomonas tolaasii***
Analysis of *Agaricus bisporus* tyrosinase activation and phenolics utilization during *Pseudomonas tolaasii* or tolaasin-induced discolouration 1497
***Pseudophragmotrichum cubense***
*Pseudophragmotrichum cubense* gen. et sp. nov. on culms of *Oncidium lucidum* from Cuba 179
***Pseudothiopsella hirtellae***
Some new coelomycetes from Central Brazil 19
***Psilocybe cubensis***
The role of morphogenetic cell death in the histogenesis of the mycelial cord of *Agaricus bisporus* and in the development of macrofungi 719
***Puccinia basirostrata***
New *Puccinia* species on *Baccharis* from Equador and Costa Rica 1108
***Puccinia distincta***
*Puccinia distincta*, cause of the current daisy rust epidemic in Britain, in comparison with other rusts recorded on daisies, *P. obscura* and *P. lagenophorae* 1227
***Puccinia ecuadorientalis***
New *Puccinia* species on *Baccharis* from Equador and Costa Rica 1108
***Puccinia lagenophorae***
*Puccinia distincta*, cause of the current daisy rust epidemic in Britain, in comparison with other rusts recorded on daisies, *P. obscura* and *P. lagenophorae* 1227
***Puccinia obscura***
*Puccinia distincta*, cause of the current daisy rust epidemic in Britain, in comparison with other rusts recorded on daisies, *P. obscura* and *P. lagenophorae* 1227
***Puccinia otavalensis***
New *Puccinia* species on *Baccharis* from Equador and Costa Rica 1108
***Puccinia quitensis***
New *Puccinia* species on *Baccharis* from Equador and Costa Rica 1108
***Puccinia recondita***
Scanning electron microscopy of early infection structure formation by *Puccinia recondita* f. sp. *tritici* on and in susceptible and resistant wheat lines 391
***Puccinia vulcanicola***
New *Puccinia* species on *Baccharis* from Equador and Costa Rica 1108
***Pycnoporus sanguineus***
Wood degradation, and cellulase and ligninase production, by *Trametes* and other wood-inhabiting basidiomycetes from indigenous forests of Zimbabwe 1399
***Pythium aphanidermatum***
Identification of *Pythium aphanidermatum* using the RAPD technique 136
***Pythium deliense***
Identification of *Pythium aphanidermatum* using the RAPD technique 136
***Pythium irregulare***
Identification of *Pythium aphanidermatum* using the RAPD technique 136
***Pythium paroecandrum***
Identification of *Pythium aphanidermatum* using the RAPD technique 136
Occurrence of *Pythium* species in long-term maize and soybean monoculture and maize/soybean rotation 1450
***Pythium spinosum***
Occurrence of *Pythium* species in long-term maize and soybean monoculture and maize/soybean rotation 1450
***Pythium torulosum***
Occurrence of *Pythium* species in long-term maize and soybean monoculture and maize/soybean rotation 1450
***Pythium ultimum***
Identification of *Pythium aphanidermatum* using the RAPD technique 136
Occurrence of *Pythium* species in long-term maize and soybean monoculture and maize/soybean rotation 1450
***Raffaelea***
Phylogenetic analysis of ambrosial species in the genus *Raffaelea* based on 18s rDNA sequences 661
**Random amplified microsatellite markers**
Genetic variation in *Phlebiopsis gigantea* as detected with random amplified microsatellite (RAMS) markers 187
Occurrence of *Gremeniella abietina* var. *abietina* large- and small-tree types in separate Scots pine stands in northern Finland and in the Kola peninsular, Russia 199
Diversity of *Tiarosporella parca* in Finland, Norway and Switzerland 1163
**Random amplified polymorphic DNA**
Identification of *Pythium aphanidermatum* using the RAPD technique 136
Intraspecific diversity in *Paecilomyces fumosoroseus* 209
Origin of primary infections of grape by *Uncinula necator*: RAPD analysis discriminates two biotypes 283
Use of molecular methods to estimate the size and distribution of mycelial individuals of the ectomycorrhizal basidiomycete *Pisolithus tinctorius* 295
*Cryptosporiopsis melanigena* sp. nov., a root-inhabiting fungus of *Quercus robur* and *Q. petraea* 347
Characterization of *Aphanomyces euteiches* strains based on pathogenicity tests and random amplified polymorphic DNA analyses 465
*Penicillium radicum* sp. nov. from the rhizosphere of Australian wheat 801
RAPD analysis of three *Alternaria* species pathogenic to crucifers 807
Comparison of twenty isolates of the entomopathogen *Paecilomyces farinosus* by analysis of RAPD markers 1254
Analysis of *Fusarium lateritium* using RAPD and rDNA RFPL techniques 1259
**Resistance**
Evidence for resistance of mountain birch (*Betula pubescens* ssp. *czerepanovii*) to birch rust (*Melampsoridium betulinum*) 63
**Resting spores**
Ultrastructural studies of resting spore development in *Polymyxa graminis* 687
Development of resting spores on plants inoculated with a dikaryotic resting spore of *Plasmodiophora brassicae* 949
**Restriction fragment length polymorphism**
Systematic appraisal of species complexes within *Cylindrocladiella* 273
Genetic comparison of the aggressive weed mould strains of *Trichoderma harzianum* from mushroom compost in North America and the British Isles 385
Variation in the ITS and IGS regions of ribosomal DNA among the biological species of European *Armillaria* 533
Genetic diversity of *Microdochium nivale* isolates from turfgrass 559
Intraspecific genetic variation of *Stagonospora avenae* and its differentiation from *S. nodorum* 607
Use of RFLP and SSCP analysis to differentiate the pine rusts *Cronartium flaccidum* and *Peridermium pini* 666
RAPD analysis of three *Alternaria* species pathogenic to crucifers 807
Molecular analysis confirms morphological reclassification of *Rhizopogon* 855
Variation in the ribosomal DNA internal transcribed spacer of a diverse collection of ectomycorrhizal fungi 859
DNA fingerprinting and vegetative compatibility analysis indicate multiple origins for *Verticillium dahliae* race 2 tomato isolates from Ontario, Canada 1089
Intraspecific polymorphism in *Metarhizium anisopliae* var. *anisopliae* revealed by analysis of rRNA gene complex and mtDNA RFLPs 1233
Analysis of *Fusarium lateritium* using RAPD and rDNA RFPL techniques 1259

**Review**
Chloromethane production by wood-rotting fungi and an estimate of the global flux to the atmosphere 769
Lectins from mushrooms 897
Biochemical and molecular aspects of growth and fruiting of the edible mushroom *Agaricus bisporus* 1297
Fountains of the forest – the interconnectedness between trees and fungi 1441
*Agaricus bisporus* browning: a review 1459
***Rhizoctonia solani***
The use of fatty acid signatures to study mycelial interactions between the arbuscular mycorrhizal *Glomus intraradices* and the saprotrophic *Fusarium culmorum* in root-free soil 1491
***Rhizophlyctis rosea***
A quantitative ecological study on the monocentric soil chytrid, *Rhizophlyctis rosea*, in Provence 1338
***Rhizopogon***
Molecular analysis confirms morphological reclassification of *Rhizopogon* 855
***Rhizopogon villosulus***
Molecular analysis confirms morphological reclassification of *Rhizopogon* 855
***Rhizosphaera kalkhoffii***
Diversity of Norway spruce needle endophytes in various mixed and pure Norway spruce stands 1183
A chemotaxonomical method based on FAST-profiles for the determination of phenotypic diversity of spruce needle endophytic fungi1190
**Rhizosphere**
*Penicillium radicum* sp. nov. from the rhizosphere of Australian wheat 801
Four rare microfungi from the rhizosphere of wheat in the United Kingdom 1487
**Ribosomal DNA**
Specific PCR based detection of *Phytophthora medicaginis* using the intergenic spacer region of the ribosomal DNA 73
Phylogenetic studies of the Leptosphaeriaceae, Pleosporaceae and some other Loculoascomycetes based on nuclear ribosomal DNA sequences 151
Systematic appraisal of species complexes within *Cylindrocladiella* 273
Identification and phylogeny of spore-cyst fungi (*Ascosphaera* spp.) using ribosomal DNA sequences 541
Genetic diversity of *Microdochium nivale* isolates from turfgrass 559
Partial ribosomal DNA sequences show an important divergence between *Phaeoacremonium* species isolated from *Vitis vinifera* 631
Phylogenetic analysis of ambrosial species in the genus *Raffaelea* based on 18s rDNA sequences 661
Molecular analysis confirms morphological reclassification of *Rhizopogon* 855
Variation in the ribosomal DNA internal transcribed spacer of a diverse collection of ectomycorrhizal fungi 859
UP-PCR analysis and ITS1 ribotyping of strains of *Trichoderma* and *Gliocladium* 933
Analysis of ribosomal DNA sequences of *Polymyxa* species and related fungi and the development of genus- and species-specific PCR primers 965
Phylogeny and biogeography of *Lentinula* inferred from an expanded rDNA dataset 1041
A new species of *Gelasinospora* from Argentina 1405
Relationship between *Prosthemium betulinum* and *Pleomassaria siparia* 1509
**Ribosomal RNA**
Variation in the ITS and IGS regions of ribosomal DNA among the biological species of European *Armillaria* 533
Detection of multiple rRNA-ITS regions in isolates of *Ascochyta* 762
Intraspecific polymorphism in *Metarhizium anisopliae* var. *anisopliae* revealed by analysis of rRNA gene complex and mtDNA RFLPs 1233
***Rickia corylophidorum***
Notes on the Laboulbeniales of Sulawesi. The genus *Rickia* 327
***Rickia mamillata***
Notes on the Laboulbeniales of Sulawesi. The genus *Rickia* 327
***Rickia pocadii***
Notes on the Laboulbeniales of Sulawesi. The genus *Rickia* 327
***Rickia serrulata***
Notes on the Laboulbeniales of Sulawesi. The genus *Rickia* 327
***Rickia sphindidorum***
Notes on the Laboulbeniales of Sulawesi. The genus *Rickia* 327
**Root rots**
Characterization of *Aphanomyces euteiches* strains based on pathogenicity tests and random amplified polymorphic DNA analyses 465
*Phellinus noxius* in Taiwan: distribution, host plants and the pH and texture of the rhizosphere soils of infected hosts 1085
***Rotiferophthora amamiensis***
Three new species of *Rotiferophthora* attacking bdelloid rotifers in Japan 1142
***Rotiferophthora ellipsospora***
Two new species of rotifer-attacking fungi, *Rotiferophthora*, from Japan and records of *Verticillium bactrosporum* in rotifer hosts 145
***Rotiferophthora japonica***
Two new species of rotifer-attacking fungi, *Rotiferophthora*, from Japan and records of *Verticillium bactrosporum* in rotifer hosts 145
***Rotiferophthora lacrima***
Three new species of *Rotiferophthora* attacking bdelloid rotifers in Japan 1142
***Rotiferophthora minutispora***
Three new species of *Rotiferophthora* attacking bdelloid rotifers in Japan 1142
**Rotifers**
Two new species of rotifer-attacking fungi, *Rotiferophthora*, from Japan and records of *Verticillium bactrosporum* in rotifer hosts 145
Isolation of a new species of rotifer-attacking *Olpidium* 206
Three new species of *Rotiferophthora* attacking bdelloid rotifers in Japan 1142
***Rubikia samsonii***
Fungi from Mauritius: *Rubikia splendida* sp. nov., a coelomycete with unusual features 1242
***Rubikia splendida***
Fungi from Mauritius: *Rubikia splendida* sp. nov., a coelomycete with unusual features 1242
**Rumen fungi**
Attachment to cellulose and maturation of attached thalli in the anaerobic rumen fungus *Neocallimastix frontalis* strain RE1 1119
**Rust fungi**
Use of RFLP and SSCP analysis to differentiate the pine rusts *Cronartium flaccidum* and *Peridermium pini* 666
***Saccharomyces cerevisiae***
Ochratoxin A accumulation in cultures of *Penicillium verrucosum* with the antagonistic yeast *Pichia anomala* and *Saccharomyces cerevisiae* 1003
Autonomously replicating sequences (ARS) from mitochondrial DNA of *Phytophthora nicotianae*: functional and structural analysis 1133
***Savoryella curvispora***
New freshwater species of *Ascotaiwania* and *Savoryella* from Taiwan 709
***Savoryella limnetica***
New freshwater species of *Ascotaiwania* and *Savoryella* from Taiwan 709
***Schizochytrium limacinum***
*Schizochytrium limacinum* sp. nov., a new thraustochytrid from a mangrove area in the west Pacific Ocean 439
***Sclerophoma pythiophila***
Diversity of Norway spruce needle endophytes in various mixed and pure Norway spruce stands 1183
A chemotaxonomical method based on FAST-profiles for the determination of phenotypic diversity of spruce needle endophytic fungi 1190
***Scutellospora gilmorei***
Arbuscular mycorrhizal fungi in *Citrus sinensis*/*C. limon* treated with Fosetyl-Al and Metalaxyl 677
***Scytalidium thermophilum***
Differentiation of *Scytalidium thermophilum* isolates by thermogravimetric analyses of their biomass 843
**Secondary metabolites**
Endophytic fungi from plants living on gypsum soils as a source of secondary metabolites with antimicrobial activity 755
**Segregation of markers**
New genetic markers for *Botrytis cinerea* (*Botryotinia fuckeliana*) 791
***Septoria chrysanthemella***
Ultrastructural evidence for two types of proliferation in a single conidiogenous cell of *Septoria chrysanthemella* 368
***Septoria tabebuiae-impetiginosae***
Some foliicolous fungi on *Tabebuia* species 695
***Serpula himantioides***
Solubilization of natural gypsum ($CaSO_4.2H_2O$) and the formation of calcium oxalate by *Aspergillus niger* and *Serpula himantioides* 825
***Setoerysiphe kashmiriensis***
A new variety and two new species of powdery mildews from India 30
**Sexual cycle**
Polymorphism of *Het*-genes prevents resource plundering in *Neurospora crassa* 1343
***Skierka agallocha***
SEM studies on a mangrove rust of Sundarbans, Eastern India 692

**Smut fungi**
A survey of the spore-ball-forming smut fungi 513
**Soil fungi**
Detection of *Amorphotheca resinae* in German soil by an improved selective isolation method 323
Occurrence of *Pythium* species in long-term maize and soybean monoculture and maize/soybean rotation 1450
**Somatic compatibility**
Structure of *Collybia fusipes* populations in two infected oak stands 361
***Sordaria brevicollis***
Homothallism and heterothallism in *Sordaria brevicollis* 1215
***Sphaerellopsis filum***
*Eudarluca caricis*, the teleomorph of the mycoparasite *Sphaerellopsis filum* on blackberry rust *Phragmidium violaceum* 866
***Sphaeronaemella fimicola***
Stimulation of growth and reproduction of *Sphaeronaemella fimicola* by other coprophilous fungi 1055
***Spongospora subterranea***
Analysis of ribosomal DNA sequences of *Polymyxa* species and related fungi and the development of genus- and species-specific PCR primers 965
**Spore dispersal**
Consumption of hypogeous fungi by the mountain brushtail possum (*Trichosurus caninus*) in Eastern Australia 269
Dispersal of *Passalora personata* conidia from groundnut by wind and rain 355
***Sporidesmiella intermedia***
New species of *Endophragmiella* and *Sporidesmiella* from Cuba 548
**Sporidesmin**
Sporidesmin production by *Pithomyces chartarum* isolates from Australia, Brazil, New Zealand and Uruguay 163
***Sporisorium reilianum***
Two species of *Sporisorium* on *Chionachne* in tropical Australia, the first Australian record of *Ustilago brunkii* and its transfer to *Jamesdicksonia* 1203
***Sporisorium simile***
Two species of *Sporisorium* on *Chionachne* in tropical Australia, the first Australian record of *Ustilago brunkii* and its transfer to *Jamesdicksonia* 1203
***Stagonospora avenae***
Intraspecific genetic variation of *Stagonospora avenae* and its differentiation from *S. nodorum* 607
***Stagonospora nodorum***
Intraspecific genetic variation of *Stagonospora avenae* and its differentiation from *S. nodorum* 607
***Stereum sanguinolentum***
Influence of spacial scale on population structure of *Stereum sanguinolentum* in Northern Europe 93
Population structure and genetic variation in *Cylindrobasidium evolvens* 1453
**Sterols**
Diversity of *Tiarosporella parca* in Finland, Norway and Switzerland 1163
Diversity of Norway spruce needle endophytes in various mixed and pure Norway spruce stands 1183
A chemotaxonomical method based on FAST-profiles for the determination of phenotypic diversity of spruce needle endophytic fungi 1190
***Stipitocyphella keniensis***
*Stipitocyphella keniensis* gen. et sp. nov. from East Africa and a missing link in the basidiomycetes 505
***Stratiphoromyces brunneisporus***
*Stratiphoromyces brunneisporus* gen. et sp. nov., an undescribed dematiaceous hyphomycete on *Licuala* palms 1149
***Stropharia rugosoannulata***
The role of morphogenetic cell death in the histogenesis of the mycelial cord of *Agaricus bisporus* and in the development of macrofungi 719
***Suillus bovinus***
The uptake and transport of lead in some ectomycorrhizal fungi in culture 953
**Symbiosis**
Stimulation of growth and reproduction of *Sphaeronaemella fimicola* by other coprophilous fungi 1055
***Syncephalastrum racemosum***
Extracellular β-amylase from *Syncephalastrum racemosum* 1563
**Systematics**
Molecular analysis confirms morphological reclassification of *Rhizopogon* 855
Morphology of *Drepanopeziza* species pathogenic to poplars 1025
**Taxol**
Stimulation of taxol production in liquid cultures of *Pestalotiopsis microspora* 461
**Teleomorphs**
*Eudarluca caricis*, the teleomorph of the mycoparasite *Sphaerellopsis filum* on blackberry rust *Phragmidium violaceum* 866
**Temperature**
The effect of temperature and inorganic phosphorus supply on growth and acid phosphatase production in arctic and temperate strains of ectomycorrhizal *Hebeloma* spp. in axenic culture 129
Low temperature acclimation and freezing resistance of extraradical VA mycorrhizal hyphae 582
Environmental factors, *in vitro* interactions, and niche overlap between *Fusarium moniliforme*, *Fusarium proliferatum*, *Aspergillus* and *Penicillium* species from maize grain 831
Effect of water activity and temperature on competing abilities of common maize fungi 959
Induction of cold active acid phosphomonoesterase activity at low temperature in psychrotrophic ectomycorrhizal *Hebeloma* spp. 1533
**Termites**
Occurrence of *Metarhizium anisopliae* in nests and feeding sites of Australian termites 216
***Thanatephorus obscurus***
*Ceratobasidium obscurum*: an atypical *Thanatephorus* species, misinterpreted as an orchid associate 1074
**Thermogravimetric analysis**
Differentiation of *Scytalidium thermophilum* isolates by thermogravimetric analyses of their biomass 843
***Thermomyces lanuginosa***
Purification and characterization of extracellular glucoamylase from the thermophilic *Thermomyces lanuginosa* 568
**Thraustochytrids**
*Schizochytrium limacinum* sp. nov., a new thraustochytrid from a mangrove area in the west Pacific Ocean 439
***Thysanophora penicillioides***
Diversity of Norway spruce needle endophytes in various mixed and pure Norway spruce stands 1183
A chemotaxonomical method based on FAST-profiles for the determination of phenotypic diversity of spruce needle endophytic fungi 1190
***Tiarosporella parca***
Diversity of *Tiarosporella parca* in Finland, Norway and Switzerland 1163
Diversity of Norway spruce needle endophytes in various mixed and pure Norway spruce stands 1183
A chemotaxonomical method based on FAST-profiles for the determination of phenotypic diversity of spruce needle endophytic fungi 1190
***Tolypocladium***
Distinction between *Beauveria* and *Tolypocladium* by carbohydrate utilization 81
***Torrubiella dimorpha***
*Torrubiella dimorpha*, a new species of spider parasite from Taiwan 1350
**Toxins**
Factors regulating the synthesis of a cyclic peptide pathotoxin produced by *Cochliobolus carbonum* 1381
***Trametes***
Wood degradation, and cellulase and ligninase production, by *Trametes* and other wood-inhabiting basidiomycetes from indigenous forests of Zimbabwe 1399
**Transformation**
Transformation of the arbuscular mycorrhiza *Gigaspora rosea* by particle bombardment 497
Transformation of the edible fungi, *Pleurotus ostreatus* and *Volvariella volvacea* 876
Autonomously replicating sequences (ARS) from mitochondrial DNA of *Phytophthora nicotianae*: functional and structural analysis 1133
Recombination pathways in *Phytophthora infestans*: polyploidy resulting from aberrant sexual development and zoospore-mediated heterokaryosis 1245
***Trichoderma***
UP-PCR analysis and ITS1 ribotyping of strains of *Trichoderma* and *Gliocladium* 933
***Trichoderma harzianum***
Electrophoretic characterization of chitinases as a tool for the identification of *Trichoderma harzianum* strains 373
Genetic comparison of the aggressive weed mould strains of *Trichoderma harzianum* from mushroom compost in North America and the British Isles 385
Induction of the *Trichoderma harzianum* chitinolytic system is triggered by the chitin monomer, N-acetylglucosamine 1224

The use of fatty acid signatures to study mycelial interactions between the arbuscular mycorrhizal *Glomus intraradices* and the saprotrophic *Fusarium culmorum* in root-free soil 1491

***Trichoderma viride***
Effect of water activity and temperature on competing abilities of common maize fungi 959

***Tricholoma mongolicum***
Lectins from mushrooms 897

***Trichophyton rubrum***
Effects of azole antifungal agents on ionomycin-induced changes in intracellular calcium concentration in *Trichophyton rubrum* 193

***Truncatella***
Evaluation of artificial neural networks for fungal identification, employing morphometric data from spores of *Pestalotiopsis* species 975

***Tuber borchii***
Biochemical and morphological modifications during the growth of *Tuber borchii* mycelium 403

***Tubeufia miscanthi***
Six new ascomycetes from Taiwan 228

**Tyrosinase**
Spot tests for oxidative enzymes in ectomycorrhizal, wood-, and litter decaying fungi 67
*Agaricus bisporus* browning: a review 1459
Analysis of *Agaricus bisporus* tyrosinase activation and phenolics utilization during *Pseudomonas tolaasii* or tolaasin-induced discolouration 1497

**Ultrastructure**
Ultrastructural evidence for two types of proliferation in a single conidiogenous cell of *Septoria chrysanthemella* 368
Scanning electron microscopy of early infection structure formation by *Puccinia recondita* f. sp. *tritici* on and in susceptible and resistant wheat lines 391
Biochemical and morphological modifications during the growth of *Tuber borchii* mycelium 403
Ultrastructural studies of resting spore development in *Polymyxa graminis* 687
Ultrastructure and lectin-gold cytochemistry of the interaction between the rust fungus *Melampsora euphorbiae* and its host, *Euphorbia peplus* 1387
The photodynamic effect of 5-(4-hydroxy-1-butinyl)-2,2'-bithienyl on dermatophytes 1519

***Uncinula necator***
Origin of primary infections of grape by *Uncinula necator*: RAPD analysis discriminates two biotypes 283

***Uncinula peruviana***
Some foliicolous fungi on *Tabebuia* species 695

**Urediniospore**
The orientation of urediniospores of *Uromyces viciae-fabae* during fall and after landing 907

**Urediniosporogenesis**
SEM studies on a mangrove rust of Sundarbans, Eastern India 692

***Uromyces appendiculatus***
Microtubule depolymerization in *Uromyces appendiculatus* by three new antineoplastic drugs: combretastatin A-4, dolastatin 10 and halichondrin B 378
Microinjected antisense *Inf*24 oligonucleotides inhibit appressorium development in *Uromyces* 1513

***Uromyces viciae-fabae***
The orientation of urediniospores of *Uromyces viciae-fabae* during fall and after landing 907

**Ustilaginales**
A survey of the spore-ball-forming smut fungi 513

***Ustilago brunkii***
Two species of *Sporisorium* on *Chionachne* in tropical Australia, the first Australian record of *Ustilago brunkii* and its transfer to *Jamesdicksonia* 1203

***Ustilago polytocae***
Two species of *Sporisorium* on *Chionachne* in tropical Australia, the first Australian record of *Ustilago brunkii* and its transfer to *Jamesdicksonia* 1203

**Vegetative compatibility groups**
Intraspecific diversity in *Paecilomyces fumosoroseus* 209

***Venturia inaequalis***
Characterization of an endopolygalacturonase produced by the apple scab fungus, *Venturia inaequalis* 313

***Verticillium bactrosporum***
Two new species of rotifer-attacking fungi, *Rotiferophthora*, from Japan and records of *Verticillium bactrosporum* in rotifer hosts 145

***Verticillium dahliae***
DNA fingerprinting and vegetative compatibility analysis indicate multiple origins for *Verticillium dahliae* race 2 tomato isolates from Ontario, Canada 1089

**Virulence**
Techniques for selective isolation, semiquantification and rapid virulence testing of *Catenaria anguillulae* 658
Introduction of new genotypes into ascospore progeny of *Cryphonectria parasitica* in the field 685

**Virus-like particles**
Double-stranded RNA and virus-like particles in the grass endophyte *Epichloë festuca* 914

***Volvariella volvacea***
Transformation of the edible fungi, *Pleurotus ostreatus* and *Volvariella volvacea* 876
Lectins from mushrooms 897

**Water activity**
Effect of water activity and temperature on competing abilities of common maize fungi 959
Improving ecological fitness and environmental stress tolerance of the biocontrol yeast *Candida sake* by manipulation of intracellular sugar alcohol and sugar content 1409

**Water availability**
Environmental factors, *in vitro* interactions, and niche overlap between *Fusarium moniliforme*, *Fusarium proliferatum*, *Aspergillus* and *Penicillium* species from maize grain 831

**White rot fungi**
Biochemical and molecular characterization of South African strains of *Phanerochaete chrysosporium* 88
The saprotrophic wood-degrading abilities of *Heterobasidium annosum* intersterility groups P and S 991

**Wood decay fungi**
Spot tests for oxidative enzymes in ectomycorrhizal, wood-, and litter decaying fungi 67
Cultural studies of fungi causing brown rot in heartwood of living lemon trees in Arizona 257
Isoenzymes of *Ganoderma* species from southern South America 415
Fungi on submerged wood in Lake Barrine, North Queensland, Australia 739
Chloromethane production by wood-rotting fungi and an estimate of the global flux to the atmosphere 769
The saprotrophic wood-degrading abilities of *Heterobasidium annosum* intersterility groups P and S 991
Wood degradation, and cellulase and ligninase production, by *Trametes* and other wood-inhabiting basidiomycetes from indigenous forests of Zimbabwe 1399

***Xylaria***
Distribution and dispersal of *Xylaria* endophytes in two tree species in Puerto Rico 944

***Yarrowia lipolytica***
Dimorphic transition in *Yarrowia lipolytica* isolated from oil-polluted sea water 553

**Zoospore cysts**
Germination triggers of zoospore cysts of *Aphanomyces euteiches* and *Phytophthora parasitica* 33

**Zoospore germination**
Germination triggers of zoospore cysts of *Aphanomyces euteiches* and *Phytophthora parasitica* 33

**Zygospore formation**
Zygospore formation in *Mortierella umbellata* 593

**Zygospore germination**
Factors affecting the rate and mode of germination of *Mucor piriformis* zygospores 815
